HE WILL GO.

Weyler About to Leave Havana.

A Popular Demonstration to be Made in His Honor.

Ordered to Remain Until Gen. Blanco Arrives.

Instructions Wires to Disband the Volunteer Forces—Nothing Un- friendly to the Dept. to Wood- ford's Auto-Returns for Cuba.

ASSOCIATED PRESS NIGHT REPORT

HAVANA, Oct. 28.—Gen. Weyler will
leave Havana tomorrow on the Mone-
tejar. He will be accompanied only
by his general staff officers and ad-
visors. There will be no other pas-
sengers on the steamer.

At 2 o'clock tomorrow afternoon,
previous to the embarkation of the
general, there will be a great popular
manifestation in his honor. The sol-
diers, according to the programme,
will take a prominent part in the demon-
stration.

The Governor-General of Cuba is to
have the right to vote legislation.

SOUTH AMERICAN SYMPATHY.

ASSOCIATED PRESS NIGHT REPORT

NEW YORK, Oct. 28.—A special to
the Herald from Havana says: "Gen.
Weyler has been ordered by his govern-
ment to remain in Havana until
Gen. Blanco arrives. This may mean
that Weyler is to be sent to another
area under arms, and returning to carry
out the order to disband the volunteer
forces."

The Cuban Committee here has col-
lected a large sum of money to aid the
rebel cause. It is stated that a resolution
to recognize the independence of the
Cubans, which is supported by many
members of Congress, will be intro-
duced.

duced.

SPAIN'S REPLY.

ASSOCIATED PRESS NIGHT REPORT

NEW YORK, Oct. 28.—Gen. Henry
de Pons, one of the leaders in Paris
of the Carlist movement, was a passenger
on the White Star liner Oceanic,
which arrived at Liverpool yesterday,
having been in command of the
Spanish Committee of the Carlist
movement. He is one of the most
ardent supporters of the cause of
Don Carlos to the throne of Spain.

While he would not admit it in words,
he gave a decided impression that his
party will support the Cuban rebels.

He said that the Cuban Committee
here has collected a large sum of money
to aid the rebels.

to recuperate for a fresh start next year.

Capt. Higgins says it is worse than folly for any one to go to Alaska now.

RICHER THAN KLONDIKE.

More Gold in Kotzebue Sound Than on the Yukon.

[ASSOCIATED PRESS NIGHT REPORT.]

RAN FRANCISCO. Oct. 28.—Capt.

B. Cogan of the steam whaler Thrasher asserts that there are richer gold fields on Kotzebue Sound than any yet discovered on the Yukon. When the whaler was at Point Hope on her way into the Arctic last spring, the Indians came in with a quantity of gold in small sealskin bags. They said there was plenty of the same stuff in the Bering and Arctic seas. Kukpuk river, and that they had been scooped up with their paddles. Capt. Cogan, Capt. Witham, late of the steam whaler Fearless, and one or two other whalers are bound for Kotzebue Sound next spring. The whaling bark Northern Light, now in Oakland Creek, will probably be fitted out and will carry the party to Point Hope.

SEEDED RAISINS.

Demands for Them Doubled Since Last Year.

[BY THE TIMES' SPECIAL WIRE.]

NEW YORK. Oct. 28.—[Special Dispatch.] The Journal of Commerce says: "Trade in seeded California raisins, which is of comparatively recent growth, has become one of the most important features in the dried-fruit market. More seeded goods are wanted this year than ever before, and trade in this description of California fruit seems to be throwing the regular unseeded goods into the shade."

The growth of the trade in seeded raisins has been rapid, in spite of the fact that at first it was difficult to educate buyers to the idea that there was an advantage in handling these goods over the ordinary stock as it came from the packers.

"Improvement in the processes and employment of the best stock for seeding, together with the extraordinary success that have been had to popularize seeded raisins, have at last met with recognition, and trade in these goods has developed in a remarkable degree during the past two years. Last year it was claimed fully two hundred cars of seeded raisins were disposed of. This year the demand has been fully double that of last season."

NOW GROVER IS HAPPY.

A MALE HEIR BORN TO THE HOUSE OF CLEVELAND.

Congratulations Showered Upon the Ex-President—Names of Sisters Ruth, Esther and Marion Put Badly Out of Joint.

[ASSOCIATED PRESS NIGHT REPORT.]

PRINCETON. Oct. 28.—A son was born to the household of Grover Cleveland, former President of the United States, at noon today. It is said that the newcomer resembles his parents in point of good health, but neither Mr. Cleveland nor the three family physicians will say anything in regard to the newcomer, other than that he is getting along nicely, and is a fine boy.

All afternoon Mr. Cleveland has received at his home the many callers who wished to pay their respects to him in honor of the occasion. Some have congratulated the ex-President personally, but many preferred to leave their cards with congratulations and best wishes for mother and son. A great many telegrams of congratulations were received.

Among the first to proffer congratulations by wire were Joseph Jefferson, C. C. Benedict, former Secretary Thurier and former Secretary Carlisle.

Princeton undergraduates have taken a great interest in the new Princetonian. The fact that a Cleveland boy was born was announced during the "varsity practice this afternoon. There was a large gathering of undergraduates on the field watching the "varsity and "varsity teams practice. When the announcement was made, three Princeton cheerleaders gave "Yay" for the boy, and the "varsity team gave three more for the father. It is probable that the undergraduate will serenade former President Cleveland and his wife at some future date. On the college bulletin board in front of Reunion Hall, was posted this notice:

"Attention! All students are invited to attend the football game between Princeton and Yale on Saturday, Oct. 28, at 2 o'clock. Will enter connection with the class of 1896 and will play center rush on the championship football teams of '96, '97 and '98."

The new baby's sisters are Ruth, Esther and Marion, whose ages are 7, 8 and 3 years.

YELLOW JACK.

No Material Change in the Situation at the South.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW ORLEANS. Oct. 28.—Today's record of new cases and deaths has not worked any material change in the yellow-fever situation, which, while not as bright as it might be, is not regarded by the Board of Health officials as alarming. There were sixty-five new cases today and eight deaths.

THE DAY AT MOBILE.

[ASSOCIATED PRESS NIGHT REPORT.]

MOBILE (Ala.). Oct. 28.—The Board of Health this evening announced four deaths and six new cases as today's yellow-fever record.

AFTERNOON BULLETIN.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW ORLEANS. Oct. 28.—The Board of Health reported twenty-eight cases and five deaths up to 1 o'clock today. The heavy increase is attributed to the chilly nights and warm days now prevailing.

MEMPHIS. Oct. 28.—Today's yellow-fever record: Two deaths and five new cases. Total to date, 6 deaths and 25 cases.

MOBILE. Oct. 28.—There were 7 new cases and 2 deaths from yellow fever today.

THE UTE UPRISING.

No definite News Yet from the Seat of War.

[ASSOCIATED PRESS NIGHT REPORT.]

DENVER. Oct. 28.—No definite news from the scene of the Indian trouble in Western Colorado has yet been received at either the office of the Governor or the headquarters of the Department of Colorado.

The following was received by the Times from Craig, Colo.: "Special messenger from the lower part of the county arrived here this morning at 4 o'clock, and reports that Game Warden Wilcox and party, who went there to keep the Utes from slaughtering game, were attacked by the Indians, and as a result the Utes were killed and one of the members of Mr. Wilcox was seriously injured. More men will go from here today to assist."

At New York Hotels.

NEW YORK. Oct. 28.—[Special Dispatch.] C. D. Cheseen of Los Angeles is at the Manhattan; Mrs. M. G. Stillman of Midland is at the Windsor.

REPORTING RECORD:

FAST BICYCLE MILE.

EDDIE McDUFFIE LOWERS THE WORLD'S RECORD.

With the Right Kind of Pacing He Beats Jimmy Michael's Best Mark.

THE SUNDAY RACING QUESTION.

PRESIDENT POTTER TRIES TO BE ON BOTH SIDES.

Close of the Harlem Races—Results of Races on Various Tracks—College Sharp-shooters—A Knock-out.

[ASSOCIATED PRESS NIGHT REPORT.]

PHILADELPHIA. Oct. 28.—Eddie McDuffie today at Willow Grove bicycle track established a new world's record for one mile; paced, covering the distance in 1:35 2/3, three-fifths of a second lower than the record made by Jimmy Michael several weeks ago. McDuffie's time today equals the time made by Sticks in London last summer, although the latter's time was not accepted, on account of the character of his pace, a motor cycle. McDuffie was paced by a quad, a quintet and two sextuplets.

THE RUNNING TURF.

Close of the Meeting at Harlem. Summary of the Races.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO. Oct. 28.—The alienating closed today: Results:

Six furlongs: Bannockburn won, St. Alfonso D. second, Judge Waddell third; time 1:07.

Six furlongs: Garland Bar won, Laurel second, Helen Wren third; time 1:14.

Final stakes, mile and a sixteenth: Bonnerge won, Macey second, Paul Griggs third; time 1:49.

Half a mile: Gath won, Billy Mason second, Ella Penzance third; time 6:18.

Half and seventy yards: Milwaukee won, Goose Liver second, Muskalonge third; time 1:45.

College Sharp Shooters.

BERKELEY. Oct. 28.—The University of Illinois has challenged the University of California to a sharp-shooting contest. The Berkeley marksmen will accept the challenge, and have already commenced practice under Lieut. R. W. Bender. Twenty men will be on the field, and the best marksman will be the champion of the college.

College Sharp Shooters.

SAN FRANCISCO. Oct. 28.—The Butte football team has been reinstated in amateur standing by the Pacific Athletic Association. The Mortons eleven can now play with any amateur team in the country.

Butte Football Players.

SAN FRANCISCO. Oct. 28.—The Butte football team has been reinstated in amateur standing by the Pacific

Athletic Association.

The Mortons eleven can now play with any amateur team in the country.

Butte Football Players.

NEW YORK. Oct. 28.—Results at Morris Park:

seven furlongs: Wordsworth won, Dominion second, Albert S. third; time 1:07.

Six furlongs: Oxnard won, Saratoga second, Opolo third; time 1:12.

Half and seventy yards: Milwaukee won, Decanter second, Miss Terry third; time 1:05.

Final stakes, mile and a sixteenth: Escaz won, Bannockburn second, Paul Griggs third; time 1:49.

AT MORRIS PARK.

Mile and an eighth: Waterou won, Scaporn second, Pete Kitchen third; time 1:54.

Five and a half furlongs: Harry Gwynne won, Henrico second, Lady Brittain third; time 1:05.

WALCOTT AND LAVIGNE.

Eddie Grancy to Refer to the Night.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO. Oct. 28.—Eddie

McDuffie will act in the

Sunday racing.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO. Oct. 28.—Sunday racing, which has been in twain the western and eastern realms of the League of American Wheelmen, may be effectually disposed of to the satisfaction of all disputants if President Potter's edict is endorsed at the next national assembly.

The solution is in the nature of a compromise by which the national association would go on record emphatically against Sunday racing, which would not in any way be sanctioned at the national racing meets.

President Potter's edict, which was

contested by the members of the

League, was endorsed at the

annual meeting of the

League of American Wheelmen.

The League of American Wheelmen

will be in session at the

Metropolitan Life Insurance

Company, 150 Broadway, New York, on

Wednesday, Oct. 29.

COAST RECORD.

MOB WANTED GORE.

SHERIFF M'EOVY DIES OF HIS WOUNDS.

Redwood City Wildly Excited Over Thomas Flannelly's Double Murder.

HOW LYNCHING WAS AVERTED.

PRISONER TAKEN TO SAN JOSE FOR SAFE KEEPING.

San Francisco Clerk's Vault Again Robbed—A Big Mining Deal. Runaway Girl Captured.

(ASSOCIATED PRESS NIGHT REPORT.) REDWOOD CITY, Oct. 28.—The only thing that prevented a lynching here tonight was the absence of the intended victim, who had been spirited away to San Jose late this afternoon. For two days Sheriff McEvoy has been hovering between life and death as a result of a wound received on Tuesday from Thomas Flannelly, whom he was trying to arrest for the murder of his father, Patrick Flannelly. The Sheriff sank steadily from early this morning, and as soon as it became apparent that he would not recover there was intense excitement throughout the community, and threats of lynching the prisoner were heard on every side.

An angry mob surrounded the jail, an ancient and insecure building. Fearing an outbreak at any moment and a raid on the jail, it was deemed wise, as a precautionary measure, to remove the prisoner to the jail at San Jose. To divert the attention of the mob, which threatened to break into the jail, a false alarm of fire was turned in. This drew the crowd to another part of town, and Flannelly was hastily bundled into a wagon and driven to San Jose. The prisoner, timid and at Mayfield, Under Sheriff Mansfield desired to procure a relay, but fresh horses were refused by the residents, none of whom possessed any sympathy for the prisoner.

It was some time before the crowd discovered that it had been defrauded of their intended victim. Sheriff McEvoy died at 10 o'clock tonight, and popular indignation knew no bounds. The double murderer, however, is securely confined in the Santa Clara jail, twenty miles distant.

(ASSOCIATED PRESS NIGHT REPORT.) THE PRISONER SAFE.

SAN JOSE, Oct. 28.—Thomas Flannelly, the Redwood City murderer, is safely lodged in the County Jail this city. He was brought here tonight by Deputy Sheriff Desirio, and B. A. Hartman of the Sheriff's Office, being made by infrequent roads so as to elude pursuers in case an attempt was made to follow them. While on the road Desirio asked the prisoner if he did not think it was a good plan to get him out of Redwood City, and the reply was, "I guess it would be rather unhealthy for me there."

Flannelly is suffering great pain from his wounds, but was able to walk to his cell with a little assistance from the officers. He refused to talk to reporters, but to Desirio he told a flimsy story to the effect that he thought the officers were after him, and that he who had come after him had him in his possession. He expressed an opinion that Sheriff McEvoy had only received a flesh wound and would soon recover. He has not yet been informed that McEvoy is dead.

Sheriff McEvoy was well known and highly esteemed here, and while his many friends deeply deplore his loss, there is no talk of lynching the prisoner.

BELL HAS A FORTUNE.

Yet He Has Been Living on the Charity of Friends.

(ASSOCIATED PRESS NIGHT REPORT.) OAKLAND, Oct. 28.—John Bell, an eccentric old man, who has been living about the town upon the charity of many with whom he became acquainted, claims that he is entitled to a share in the estate of Mrs. E. C. Bailey, who lives near Chelsea, Mass., not far from Boston. Mrs. Bailey's husband, who died not many years ago, was manager of the Herald of that city, and the family is reputed to be worth a sum not less than \$5,000.

Bell offers proof of the fact that he is a brother of Mrs. Bailey, and has prevailed upon the officers of the Y.M.C.A. to write to Boston for verification of his claim to the true title. He recently has come from Mrs. Bailey, stating that her brother is incompetent and that a man has been selected to provide for his needs.

Bell claims that he is rational and able to care for himself. He will not accept the aid offered him, but awaits the opportunity, he says, to establish his rights in the eastern holding which he claims his mother left to himself and sister.

BIG MINING DEAL.

English Capitalists Invest Half a Million in California.

(ASSOCIATED PRESS NIGHT REPORT.) SAN FRANCISCO, Oct. 28.—English capital has invested an amount, said to be nearly \$500,000, in the purchase of the Grand Victory group of gold mines on Squaw Creek, in El Dorado county, seven miles southeast of Placerville. This is the largest deal which has been made in California for some time, and the intention is to work the property on an extensive scale. The purchaser is the Transatlantic Mines Purchasing Syndicate (limited) of London, and the sellers were H. E. Pickett of Placerville and E. W. Wright of Indianapolis, Ind. The first payments have been made and the property has been taken possession of by the English syndicate, which has placed J. Rastin Bell of Glendale, in charge. The reports on which the investment was made showed a large body of low-grade ore, the vein being 215 feet wide and the ore running \$4 and \$5 a ton. The property comprises 160 acres of mineral land.

BOND STOLEN.

San Francisco County Clerk's Vault Again Robbed.

(ASSOCIATED PRESS NIGHT REPORT.) SAN FRANCISCO, Oct. 28.—The County Clerk's vault has again been robbed. The \$20,000 bond of J. C. Hughes, assignee of the bankrupt San Francisco Furniture Company, with F. M. W. Lange and E. H. Lange as sureties, is missing. Judge Slack declares that he has no doubt that it has been stolen. Some time prior to its disappearance, however, one of the attorneys in the case took the precaution to have a certified copy of the bond made.

The affairs of the concern for the proper management of whose business the bond was given are in such a state that Judge Slack described them as

"chaotic." A referee has been appointed, and weeks have been spent in striving to unravel the confusion and discover what has been done with the assets of the insolvent company, but thus far without success. It will be remembered that the Fair will and the Henry Martin will, besides other legal papers, also disappeared from the vault in the office of the County Clerk.

ICE-BOUND WHALERS.

Faith Hope That They May Escape from Their icy Fetters.

(ASSOCIATED PRESS DAY REPORT.)

SAN FRANCISCO, Oct. 28.—Arctic navigators and operators of whaling ships say there is still hope for the Belvedere, Orca, Fearless, Rosario and Jeanne, the five vessels that were caught in the ice west of Point Barrow, about October 1, will get out, but that the ice is a very faint one. Their release from the ice pack would have to come very soon after they were inclosed by the floes, or their boat would before spring be drifting in the prevailing winds, current toward the Siberian coast. Nothing but heavy southeasterly gales, which would drive the ice back from the land, would save them, and at this season of the year such winds are very rare in the Arctic Circle.

The Newport, the Jessie H. Freeman and the Waverley, which spent last winter in the Arctic, are to come home this fall, but nothing has been heard of them west of Point Arrow, and it is thought that they, too, may have been caught in the ice.

SHOT THRIFT.

Brutal Mexican Murderer Lynched in Arizona.

(ASSOCIATED PRESS DAY REPORT.)

CLIFTON (Ariz.), Oct. 28.—At Monsoon copper camp near Clifton, an inoffensive Mexican laborer was found near the Detroit smelter with a bullet hole through his neck and his head smashed to a pulp. Juan Madero, supposed to be one of the Chicano gang that tried to capture the town several months ago, was arrested and placed in the camp jail, a short section of a boarded-up tunnel in the hillside. Shortly after the arrest several hundred Mexicans stormed the tunnel, broke down the door and riddled Madero with bullets. Shortly after the lynching a second murdered Mexican was found on the trail near Duncan on the outskirts of town. The man was found shot through the heart. The body was given the same atrocious treatment as the first one, there is no doubt that the crime was the work of the man lynched.

NOT GUILTY.

Dan Dutcher and Mrs. Schofield Go Scott Free.

(ASSOCIATED PRESS DAY REPORT.)

SAN JOSE, Oct. 28.—The jury in the Dan Dutcher case returned a verdict of acquittal this morning, after being out all night. The verdict was received with applause, which was promptly checked by the court. After Dutcher was discharged, the District Attorney moved that the court discharge Mrs. Schofield, also, arguing that all the evidence was submitted to the Dutcher case; and that he, having been acquitted, it was needless to proceed with the defense. The motion was granted, and both, surrounded by friends, left the courtroom. Dutcher's father was visibly affected by the verdict, but neither of the defendants betrayed any feeling, other than relief. A crowd assembled outside the jail to see them leave.

DETERMINED TO DIE.

Loss of Wife and Fortune Drove Diver to Self-destruction.

(ASSOCIATED PRESS DAY REPORT.)

SAN FRANCISCO, Oct. 28.—Raymond A. Diver, an insurance agent in the employ of the Mutual Benefit Life Association of this city, committed suicide by swallowing a quantity of cyanide of potassium in a vacant room in the building at No. 415 Montgomery street last night, his body being discovered shortly before noon today by some occupants of the building. He left a note addressed to the Coroner announcing his intention of taking poison, and his means proved ineffective. The note was torn to shreds and his trunk containing his clothing and personal effects, which makes the case all the more mysterious.

Tipton Has Vanished.

SAN FRANCISCO, Oct. 28.—C. A. Tipton, aged 22 years, has mysteriously disappeared. For five years he was employed on the ranch of John McGowan at Watsonville. On June 6, last year, he came to the city to have his eyes treated by an oculist. Since then nothing has been seen or heard of him. He last stayed with his employer, and his trunk containing his clothing and personal effects, which makes the case all the more mysterious.

Boys' Arm Torn Off.

OAKLAND, Oct. 28.—Edgar Cochran, 15 years old, had his right arm torn off from the socket today while he was operating a mechanical milking machine in Brown & Adams tannery. The boy's arm was caught between heavy rollers and before the machine was stopped he was nearly killed.

Caught in Machinery.

SAN FRANCISCO, Oct. 28.—William Cassidy, employed at Fort Point as fireman on an engine used to drive a pumping plant, caught in the machinery today and was severely injured. His right arm was broken and badly mangled, his nose and lips were torn to shreds and his forehead stripped to the bone.

Cruiser Baltimore.

SAN FRANCISCO, Oct. 28.—Late this afternoon the cruiser Baltimore crossed the bay and anchored at Sausalito, where she will lie until Saturday, when it is expected she will sail for Honolulu. Ten of the sailors who deserted from her made several efforts to return today, but were unable to raise money enough to get to the vessel.

Boiler Explosion.

EUREKA, Oct. 28.—The boiler of an upright donkey engine on the north jetty exploded this morning. Engineer George Wilson was badly scalded about the hands and face and Harry Gardner the third, severely injured. The boy's arm was caught between the heavy rollers and before the machine was stopped he was nearly killed.

The CASE CONTINUED.

(ASSOCIATED PRESS NIGHT REPORT.)

CHICAGO, Oct. 28.—Ex-Judge Vincent may not appear as counsel for Adolph L. Luetgert in his second trial, which is scheduled for next week. Vincent urged Luetgert to agree to a reasonable continuance of the case, but the latter is obstinate. Vincent told Luetgert that he had neglected his business three months to try the case, and now proposed to have a little time for himself. This made Luetgert very angry, and he sent for Attorney Ramsey, formerly Assistant State's Attorney, and consulted him relative to taking charge of the second trial.

Judge Vincent May Not Take Part in His Second Trial.

(ASSOCIATED PRESS DAY REPORT.)

CHICAGO, Oct. 28.—Ex-Judge Vincent may not appear as counsel for Adolph L. Luetgert in his second trial, which is scheduled for next week. Vincent urged Luetgert to agree to a reasonable continuance of the case, but the latter is obstinate. Vincent told Luetgert that he had neglected his business three months to try the case, and now proposed to have a little time for himself. This made Luetgert very angry, and he sent for Attorney Ramsey, formerly Assistant State's Attorney, and consulted him relative to taking charge of the second trial.

The CASE CONTINUED.

(ASSOCIATED PRESS NIGHT REPORT.)

SAN FRANCISCO, Oct. 28.—Nurse Hawkins, the young man who volunteered to attend the case of typhus fever that was recently treated at the City and County Hospital, is believed to have the malady, and to be dying. The case he volunteered to nurse was the first of the kind ever known on the Coas.

Going to See the President.

EUREKA, Oct. 28.—Jerry James, chief of the tribe of Hupa Indians, started today for Washington, D. C., to interview President McKinley in reference to securing a government school for his tribe, to be located on Humboldt Bay.

Child Burned to Death.

ALAMEDA, Oct. 28.—Little three-year-old Isabella White, daughter of E. J. White, was burned to death today. She was playing with matches when her dress caught fire. Her mother extinguished the flames, but the child died a few hours afterward.

Wants a Second Term.

OAKLAND, Oct. 28.—Congressman S. G. Milford has announced that he is a candidate for renomination, and that he has not made any combinations in the Alameda county fight for Governor.

Editor Bawdencroft Acquitted.

SAN FRANCISCO, Oct. 28.—D. W. Bawdencroft, editor of the Petaluma Courier, was today acquitted of the charge of libel preferred by Michael Walsh, a City Trustee of Petaluma. The jury was out only fifteen minutes.

Benjamin Acquitted.

SAN FRANCISCO, Oct. 28.—Charles A. Benjamin, the sailor who was accused of the murder of August Johnson, mate of the steamer "Lorraine," was acquitted by a jury in Judge Dunn's court. Benjamin and Johnson went out in a Whitehall boat on August 22d last and some time afterward Benjamin returned to shore without his companion. Several days later the remains of Johnson were found on the Alameda shore, and Benjamin was identified as his murderer. There was no evidence to contradict the story of the defendant that Johnson fell overboard and was drowned.

A FINE WEAPON.

How William Deming Tested His Revolver at Sacramento.

(ASSOCIATED PRESS NIGHT REPORT.)

SACRAMENTO, Oct. 28.—Early this morning William Deming, a laborer, shot Antone Valles (colored) in the jaw and then committed suicide by shooting himself with the same revolver. No cause is known for the affair. Valles stated that he merely made some remark about Deming's fine weapon, when the latter shot him. Valles then ran from the house to a grocery for assistance, and Deming immediately turned the weapon on himself.

HUNAWAY GIRL.

Found by a Detective in a Lodging-house.

(ASSOCIATED PRESS NIGHT REPORT.)

SAN FRANCISCO, Oct. 28.—Lucia Barrie, a pretty little girl of 16 years, who has been missing from her home in Tuolumne county for a week past, was found this morning by Detective Anthony in a lodging-house on Fourth street. Miss Barrie left her home last Friday in company with Frank Brown,

ley, a tailor, and his wife. She was arrested at Stockton on a message from her mother, but as no warrant was forthcoming, she was allowed to resume her trip.

The three came to San Francisco. Luella was provided with a room in the hotel where she was found, and the Bromleys settled down there. The girl's father is a wealth mining man, and the family is said to occupy quite a prominent position in Sonora.

OVERDUE SHIPS.

SAN FRANCISCO, Oct. 28.—The British ship Taymount is out 180 days from Liverpool for this port, and some anxiety is being expressed for her safety. The vessel is a new one, and it is thought that under ordinary circumstances she should have arrived here a month ago. The Norwegian ship Orienta is also making a long passage to this harbor. She left Newcastle 177 days ago, but she has never shown herself to be a fast sailer, and there is not much anxiety regarding her safety.

TRIED TO ESCAPE.

MONTEREY, Oct. 28.—Julia Johnson, the negro, charged with infanticide, who has been out on bail since her arrest on the early train this morning, and was subsequently surrendered by her bondsmen, having been discovered locked in a closet of the train. The crime with which Julia Johnson is charged is the killing of her child by severing its head from its body. The infant's head was found buried in a vacant lot, but the rest of the body has never been discovered.

REVERD VERDICT.

OAKLAND, Oct. 28.—The third trial of Loren Fox's suit for damages for the killing of his four-year-old son, Arthur, was ended today with a verdict of \$4000 against the Oakland Consolidated Electric road. The case has attracted more than usual attention from the opinion given by Justice Van Fleet of the Supreme Court that the original judgment of \$6000 was excessive. This time the father only asked for \$5000. This time the jury lowered \$1000, to be within range of the appellate court's views.

Lumber Schooner Launched.

EUREKA, Oct. 28.—From the shipyard of H. D. Belding at Fort Ross, the three-masted schooner Midland was launched this afternoon, being the third vessel completed there this season. Her net tonnage is 412, and she will carry 550,000 feet of lumber. Albert Meyer of San Francisco is her managing owner. She was built by J. R. Hanfy & Co. of San Francisco, and on her maiden voyage will take a cargo of lumber to Honolulu. She will probably continue in the Hawaiian trade.

COURT DECIDES.

SAN FRANCISCO, Oct. 28.—In reliable quarters it is stated that the conference between Russia, Japan and the United States, now proceeding here in reference to sealing in the Bering Sea and the North Pacific, has advanced to an important stage and that a proposition has been reduced to writing which, if accepted, will bring about a complete change in the sealing question. The proposition is said to be acceptable to the United States and Russia, and Japan will probably endorse it too.

THE GREATEST SECRECY IS PRESERVED IN ALL OFFICIAL CIRCLES AS TO THE NATURE OF THE PROPOSITION.

WASHINGTON, Oct. 28.—In reliable quarters it is stated that the conference between Russia, Japan and the United States, now proceeding here in reference to sealing in the Bering Sea and the North Pacific, has advanced to an important stage and that a proposition has been reduced to writing which, if accepted, will bring about a complete change in the sealing question. The proposition is said to be acceptable to the United States and Russia, and Japan will probably endorse it too.

By way of commemorating the seventh birthday of Alfred M. Jones, the Berlin entrepreneur, Plastic Art has founded a scholarship of the annual value of \$800 marks, for which students of painting or sculpture may compete.

The number of pilgrims to Burns' birthplace last year was 38,000. During the same period 30,000 persons visited the "Empress" house at Strand-on-the-Avon, and 100 persons the birthplace of Burns.

The greatest secrecy is preserved in all official circles as to the nature of the proposition.

THE TIMES

Weekly Circulation Statement.

STATE OF CALIFORNIA, COUNTY OF LOS ANGELES, SS.

Personally appears before me, Harry Chandler, Superintendent of circulation for the Times-Mirror Company, who, being duly sworn, deposes and says that the daily bona fide editions of The Times for each day of the week ended October 23, 1897, were as follows:

Sunday, October 23,	25,700
Monday,	18,000
Tuesday,	19,000
Wednesday,	20,000
Thursday,	18,050
Friday,	18,120
Saturday,	18,100
Total for the week,	134,085
Daily average for the week,	19,155

(Signed) HARRY CHANDLER
Sworn and sworn to before me this 23d day of October, 1897.

NOTICE.—THOMAS L. CHAPIN, Notary Public in Los Angeles, County of Los Angeles, State of California.

NOTE.—THE TIMES is a seven-day paper. The above aggregate, viz., 134,085 copies, is not to be taken as the sum of the past week, but, if apportioned on the basis of a six-day evening paper, give a daily average circulation for each week-day of 22,347 copies.

THE TIMES is the only Los Angeles paper which has published sworn statements of its circulation, both gross and net, weekly, monthly and yearly during the past several years. Advertisers have the right to know the NET CIRCULATION of the medium which seeks their business, and this THE TIMES gives them correctly from time to time; and it furthermore guarantees that the circulation of THE TIMES regularly exceeds the combined circulation of all other Los Angeles daily newspapers.

AMUSEMENTS TONIGHT.

LOS ANGELES—La Favorita.
ORPHEUM—Vaudville.
BURBANK—Held by the Enemy.

BRYAN IN OHIO.

At considerable expense the unsound-money wing of the Ohio Democracy imported W. J. Bryan of Nebraska to put the "finishing touches" on the Buckeye campaign. The managers of the campaign would better have saved their money or invested it in some other kind of merchandise; for it appears from the press reports that the Nebraska orator (so-called) has added nothing more than a mess of dreary drivel of the usual Bryan-esque sort, to the literature of the campaign.

Mr. Bryan, it may be noted in passing, travels in a private car. Whether he travels on railroad passes is not definitely stated, but the supposition is that he does, inasmuch as his Pacific Coast tour, some months ago, was made principally upon Southern Pacific passes. His speeches, so far as reported in the dispatches, were mostly a mere rehash of the fallacies and falsehoods which he made to do duty as campaign speeches in 1886, and which he has given an airing on every possible occasion since.

Mr. Bryan is unable to recognize a dead issue, even when it lies straight in his path and is putrescent. He is affected with a hopeless case of intellectual strabismus if he still cherishes the notion that the question of free, independent and unrestricted silver coinage is a living issue. His mental olfactory are singularly perverted if he fails to detect the odor of advanced decomposition which clings about the cadaver of that issue.

Speaker at Van Wert, O., of the improved conditions of trade and industry in the United States—the existence of which he had not the hardihood to deny—Mr. Bryan attributed them to the "discovery of gold in Alaska and the famine in India," which, he declared, "the Republicans are rejoicing over, even though the famine resulted in the loss of thousands of lives." What a terrible arraignment of the Republican organization is this! How can the party of Lincoln and Grant and Blaine and McKinley hope to survive so savage an onslaught?

It is a pitiable spectacle when a whilom candidate for the high office of President of the United States is driven by the logic of events to expedients so paltry as those to which Mr. Bryan resorts. The famine in India has about as much to do with the revival of industry in the United States as a solar eclipse has to do with the birth of a pair of twins in the Bryan household. The discovery of gold in the Klondike region has added less than one-twentieth of 1 per cent. to the monetary wealth of the nation or from 10 to 12 cents per capita. Comment on this proposition is not imperatively demanded.

LET US HAVE CLEAN MONEY.

The Chicago Inter Ocean and a few other influential journals which are not devoting the whole of their editorial space to denunciation of the "California Exclusion Act," are advocating more liberal issues of paper money, not to swell the volume of currency outstanding, but to take the place of bank notes, legal-tenders, silver certificates, etc., that have become soiled by too long usage. The government, under the existing practice, replaces these notes by new ones when they have become badly worn or mutilated; but it is urged, and with considerable force, that it is not well to delay the reissue of these forms of money until they have become worn and filthy, and perhaps infected with disease germs. It is pointed out that the Bank of England retires every note that passes over its counters, and issues a new duplicate note in its place, and that it would be well for our government to adopt a similar course.

The reform suggested could be easily adopted, without prejudice to the financial theories of any individual or party, and no good reason is apparent for not putting it into operation. Some of the paper money in circulation, more especially in the States east of the Great Divide, is disgracefully worn and filthy. A provision by which all bills, when slightly worn or soiled, could be exchanged at the pleasure of the holder, for fresh, new bills, would certainly be advantageous from a sanitary point of view, if from no other. The government might keep on hand, at the various sub-treasuries and bank depositories, an ample supply of new notes, to be freely exchanged for old ones on presentation, making careful provision for the destruction of the discarded issues. In this manner the paper currency could be kept clean and wholesome, and the danger of infection would be reduced to a minimum. The government presses would be kept somewhat busier than now, but the printing of the extra bills would be but a mere trifle as compared to the benefits which would result from getting rid of the great volume of worn and filthy currency now in circulation.

There is one comforting thing about Skookum Gulch; everybody knows how to spell it.

in that contention. There is no occasion for class legislation in this matter, for under the provisions of the proposed anti-hitching ordinance, owners of public vehicles are given all the rights they should, in reason, demand. The streets should be left absolutely free for traffic, and the City Council should see that they are so maintained, by adopting the proposed ordinance without material modification.

The worthlessness of rich men's sons has once more been shown in the case of the two male offspring of George M. Pullman, who have been cut off from their father's great estate of millions with but a paltry \$250 a month, while the daughters get \$1,000.00 or more, each. There is something radically wrong with the methods of training youths when they cannot, upon maturity, be trusted to take men's places in the world. One can easily read between the lines of Mr. Pullman's will a story that is heartbreaking and tragic, for "how sharper than a serpent's tooth it is to have a thankless child."

The only way for a man to be successful in the Klondike country is to go without the slightest knowledge of where to look for gold. With a capacity for starting in and digging in any old place, the veriest tenderfoot in the world is likely to come upon a mine of untold value. But the experienced miner should remain away from the country and do his prospecting in a region where gold is wont to locate itself according to rules and regulations.

Prof. Holden is not to be Superintendent of the Coast and Geodetic Survey, and so is gone prospect of seeing the Pacific Ocean blazing with war, and another public enterprise torn up the back and ripped open across the middle. Things in the Coast Survey are not going to be as picturesque as they would have been with Holden in charge, but they will be a blooming lot more calm and peaceful.

In a dispatch regarding the death of the Duchess of Teck, the Evening Express states that this portly and popular lady was "born May 27, 1833, and married June 12, 1864;" also that one of her daughters was born on May 26, 1865. Our enterprising and able evening contemporary should explain how it managed to get this extraordinary day dispatch, and what is the matter with the thing, anyway.

Football is to be introduced into China, and the casualties of the recent war with Japan will be repeated on a large scale. Some method had to be adopted to reduce the surplus of population over there, and death by football is doubtless quite as comfortable as death by smallpox or yellow fever, or the bubonic plague.

The Los Angeles Herald says: "John P. Irish is a Republican politician of the most rabid . . . stripe." This will be startling news to John P. and the country at large; fit, indeed, to go on record as the greatest scoop since the San Francisco Examiner made a picture of Evangelina Cisneros's pants.

Henry Watterson has found a Moses to lead the Democracy through another slaughter-house into an open grave, and his name is Carter Harrison of Chicago. But won't it sound odd to hear the untutored harrumphing for Harrison?

There are still a number of servant maids and scullions who wear their hats at the theaters and obstruct the view of persons behind them, but the real ladies are more considerate, and invariably show their unselfishness by removing top-lofty headgear. God bless 'em!

London has rejected a woman librarian because the trustees claim they "want a librarian we can swear at." The fact that the "fine old English gentleman" hesitates about swearing at a woman will strike this country with considerable surprise.

When Joshua commanded the sun to stand still, he was undoubtedly acting in the interest of an evening paper. This shows what a pull the evening paper had, even on Providence, at that early day. (See truthful evening sheet.)

The Philadelphia Record declares that buckwheat is the national flour. And then the editor, after giving himself another round of scratching, went on pulverizing the trusts and viewing with alarm.

Popular opinion has apparently veered around somewhat in Chicago in favor of Luetgert, but there still seems to be wanting a restoration of confidence in the Luetgert brand of sausage.

Bryan wants to know what good the Republican party has ever done? Well, we know of at least one thing to its credit: it beat the stuffing out of William Jennings Bryan anno Domini 1896.

Central California wants to put up Republican candidate for Governor. All right, Central, ring us up when you have discovered the strongest man in the State!

When a Californian gets broke in New York he can go down and stop over night with his old friend D. O. Mills, for 20 cents—if he can borrow the 20 cents.

With Spring street resurfaced, and a hatching ordinance adopted and enforced, Los Angeles will again begin to resemble the city of Our Lady of the Angels.

Marc Hanna says, "A man who incites people against their fellow-men ought to be put in the penitentiary." Mr. Hanna has stumbled onto a great truth.

The hitching ordinance is still in abeyance, with the hackmen goading industriously to secure not only their present advantages, but to increase those by driving the general public of the main streets, leaving them to the tender mercies of the men who own express wagons and other vehicles for hire. The assumption that a class should be favored in this manner is ridiculous. If there is to be any standing of teams on the public streets, the man who owns a private vehicle has as many rights as the one who owns a hack, and we do not doubt that in case of a contest the law would sustain him

"When is the best time to marry?" and came to the unanimous decision that whenever a man could be corralled was as good a time as any other.

Wages are constantly increasing in Japan, contrary to all the rules made and provided for a country that has just adopted the gold standard.

If San Diego insists upon being a tail for the Territory of Arizona, we trust no Californian will be so unkind as to tie a can to it.

Henry George says he believes in Democracy with a small d. For once he is on the side of the majority.

Spring street is to be repaved. The moment is propitious for the populace to rise and all join in singing the doxology.

What the manufacturers of chainless bicycles are looking for just now is a lawsuitless patent.

The real estate market has been remarkably steady during the past week, and a number of small sales have been closed, including several which run into larger figures. A feeling of confidence prevails among the dealers and agents, and there is a general belief that the coming winter will see an active and profitable business.

LOS ANGELES THEATER. It lacks

one year of an even century since Gaetano Donizetti, one of Italy's musical immortals, was born into this dull old world, and it is more than sixty years since "Lucia di Lammermoor" was first sung on the stage of Naples, but time has neither served to dim the lustre of the composer's fame, nor has it lessened the glories of the music set round and about the theme of Walter Scott's moving tragedy of "The Bride of Lammermoor." Donizetti came into the world of melody competing as a score-writer against two of his illustrious countrymen, Rossini and Bellini, the three having gone to Paris at that time the center of the musical world, as soon as they had established their reputations on the stage of Italy. The trio of composed and ambitious to adapt the style of their music to the artistic demands and tastes of their adopted country, but Donizetti fell behind in this ambition, for as an artistic genius he did not approach his two contemporaries, and he made a comparative failure in the French capital. When he brought out "Lucia," he was placed in a corner, yet its instant success told him that he had made a good start, and he did well to confide him for the caricatively bad received from the fastidious and exacting Parisians.

While Donizetti has shortcomings as a composer, according to recognized critics, he has a decided gift of dramatic impulse and lacking the melancholy softness of Bellini, and the sparkle of Rossini, he has a store of fluent melody and the rarest skill as a writer for the voice. This is why "Lucia" is a favorite opera of Adelina Patti, and the three great prima donnas who excel in the capacity for exhibiting vocal pyrotechnics.

As an instance the brilliant aria of the demented Lucia in act four, with the flute obligato—it is a fascinating bit of score-writing, exacting in its demands upon the vocal, fluent and exciting.

But above and beyond all this the opera of "Lucia" has one number, the ensemble that follows the signing of the contract, which is a masterpiece of art, not being excelled by any other of musical in an Italian style.

Sextettes of all sorts and conditions have sung this number in all sorts of environments, from that of a finale in a farce-comedy, and yet it stands out peerlessly, grand, moving and majestic, a gem of melody of the purest ray serene.

And how gloriously it was sung last night! The singers who are now with us have accomplished some striking effects in dynamic harmony in the other compositions they have presented, but the single performance of all the songs of this number has been a tremendous success.

But above and beyond all this the ensemble that follows the signing of the contract is a masterpiece of art, not being excelled by any other of musical in an Italian style.

THE WEATHER.

U. S. WEATHER BUREAU, Los Angeles, Oct. 28.—At 5 o'clock a.m. the barometer registered 30.12; at 5 p.m., 30.09. Thermometer for the corresponding hours showed 54 deg. and 68 deg. Relative humidity, 5 a.m., 43 per cent; 5 p.m., 27 per cent. Wind, 5 a.m., north, velocity 4 miles; 5 p.m., southwest, velocity 5 miles. Maximum temperature, 73 deg.; minimum temperature, 48 deg. Character of weather, clear. Barometer reduced to sea level.

The Times

ALL ALONG THE LINE.

The need of a complete and effective system of storm drainage for the entire city grows more apparent each year. Undoubtedly the cost of such a system will be heavy, but sooner or later it must be established. There are parts of the city which in times of heavy rains are virtually submerged. Makeshifts and temporary expedients have been tried repeatedly, but as a rule they merely result in throwing the storm waters from one neighborhood into another. A complete and homogeneous system is a public necessity.

Probably there is no line of industry in which greater ingenuity and inventiveness is displayed than in the time-honored occupation of making money out of the city. Some of those who practice this profession rise to the heights of genius, but there are many humbler artists whose efforts should not pass entirely unnoticed. Among the latter is the thrifty individual who has been unostentatiously engaged in angling for the goldfish with which the city has stocked the lake at one of the parks, and then peddling them out to people who desired to start aquariums. His profits were not large, but he should at least have the credit of having devised a new way to make money out of the dear public. His business has been unfortunately cut short by the Park Commissioners.

There has never been a period of greater development in the country towns of Southern California than the present, especially in the way of the erection of residences. It may not be wise to attempt to enumerate the towns which are showing great activity along this line, for fear of overlooking others which are doing equally well, but the development can be said to extend all the way from Redlands to Los Angeles. Ontario and North Ontario have made great growth in the past few months. Chino has really been booming. Pomona has every carpenter at work. Half the houses in Azusa smell of fresh paint, so rapid has been the growth. Covina has been building extensively, but there is not a vacant house in the town; and so it goes everywhere, the country districts keeping pace with the towns. This building activity is not carried on for fun, but is made necessary by the constant increase in population.

MEN OF NOTE.

Gov. Drake of Iowa is not seriously ill as reported, but is going about Excelsior Springs, Mo., as well as could be expected, and expects to regain his lost health in a short time.

The Rev. Thomas Ewing Sherman, the eldest son of Gen. Sherman, will be a factor in the annual reunion of the Army of the Tennessee, which will hold its gathering at Milwaukee at the end of this month.

J. H. Hariston, a colored convict, who escaped from the penitentiary of Virginia, has sent to the superintendent the following telegram from Farmville: "I am here; please come and get me as soon as possible."

The Rev. Peter Pillsbury is the last of the band of abolition agitators, and lives peacefully and in excellent health at Concord, N. H. He was born in the same year that gave Lincoln, Gladstone and Darwin to the world.

The English novelist, Thomas Hardy, recently, in discussing his great novel, "Tess of the D'Urbervilles," said that if it had not been a bleak and gloomy day when he wrote it, St. Stephen's he would not have made Tess die.

A Tennessee paper says that Gov. Taylor finds his salary of \$4000 inadequate for his yearly expenses for comfortable support and that it is to keep the wolf from the door that he goes upon the platform to lecture for fee.

The Prince of Wales, when he attends a state function in full dress, wears only the most elaborate ornaments at the British court. It is a plume of feathers pulled from the tails of the feriwha, the rarest and most beautiful of Indian birds.

J. M. Barrie's description of himself in his journalistic days, ten or twelve years ago, is "An uncouth stranger wandering in the dark round the castle, his appearance unprepossessing, a book in his pocket, and his thoughts 300 miles due north."

The poet Swinburne is one of the most erratic persons in the world. Although he is a perfect master of French, German and Greek, it is his delight to pretend that he is illiterate. He left Oxford with a great reputation for learning, but he would not take a degree. He lives near London in a charming old house and is scarcely ever seen in society.

No other painter has a home of such artistic luxuriance as Alma-Tadema. R. A. Perhaps its most remarkable feature is the wall, which is paneled with tall, slim pictures, each of them by a different painter. Leighton, Dighton, Sargent, Cameron and a full score of the artist's friends each contributed to this remarkable embellishment.

When Benjamin Franklin arrived in England he became violently ill and no one could persuade him that he was not going to die. It was then that he wrote the famous epitaph for his tombstone: "The body of Benjamin Franklin, like the cover of an old book, its contents torn out and stript of its gilding, lies here, food for worms. Yet the work itself shall not be lost, for it will appear once more in a new and more beautiful edition corrected and amended by the Author."

Alcoholism in France.

[London Chronicle] The ravages of alcohol in France appear to have beaten the record of the most hardened British drunk-drinkers. Dr. Brunon and Dr. Trudot, who have made the matter their especial study, declare that an alarming proportion of the French workmen begin their day by drinking whisky, brandy, mixed wines, wine, faints, grappa, and more frequently raw absinthe. The dose is repeated in the forenoon and again after work. Rouen is, it appears, the most bibulous city in France, and there the plague has reached the women and children through "soupe à l'alcool," composed of crushed grapes or rather sherry, which is poured. The compound is then completed by pouring in half a litre of potato spirit. Beer is little drunk by the poorer classes, and wine as a beverage is in disrepute.

DREAD YELLOW JACK.

STATE BOARD OF HEALTH TAKES CHARGE OF THE QUARANTINE.

All Freight from Yellow Fever Infected Districts Will be Refumigated Before Entering This City.

The State Board of Health has taken the work of quarantining all freight from yellow-fever infected districts, shipped to or via this city, off the hands of the City Board of Health. The railroad companies are in every way aiding the officers in this work, and from this time on all freight from the plague-stricken sections of the South will be stopped outside of the city and fumigated, regardless of whether the freight was fumigated when loaded in the cars or not.

Yesterday Dr. Weiden of San Pedro, acting for Dr. Hill of the State Board of Health, fumigated two carloads of bananas that were shipped here via New Orleans from Central American points.

The fruit came over the Santa Fe route, and was killed as having been fumigated after being loaded. While the physicians considered this precaution, coupled with the long journey in ventilated cars had rendered danger from fever germs most remote, still it was decided to make no exceptions, and to fumigate everything from the infected country.

The greatest danger is to be apprehended from boxed goods, as the temperature inside of a closely-packed box remains sufficiently high in crossing the mountains to keep the fever germs alive. Where goods are packed open boxes, and air can circulate freely through them, there is little or no danger, say the doctors, that the fever germs will survive the cold, but even in such cases refumigation will be insisted upon, making assurance doubly sure that Yellow Jack is dead.

The assumption of the quarantine work here by the State Board of Health will relieve the city board of an immense amount of work it was not fully equipped to handle, without great expense to the city. The work really belongs to the State Board of Health and the City Board of Health and Health Officer Powers will at all times render such assistance as they can in seeing the quarantine laws are enforced.

It is probable that both the Santa Fe and Southern Pacific railroads will issue orders to agents to refuse to handle any freight from Los Angeles or via this city, goods that are known to come from fever-infected localities. Of course the goods now in transit will have to be delivered, but in every instance they will not be brought into the city or allowed to go into the interior of the State until pronounced safe by the health officer.

The most rigid rules are being enforced in New Orleans and elsewhere regarding the fumigation of the mails and certain classes of mail matter are not received now for any kind of weather.

Chamber of Commerce.

Klondike Pamphlets Sealed in Oil-cloth Wrappings.

The pamphlets gotten out by the Chamber of Commerce for distribution among the men who are tasting the delights of the Klondike climate, are well clad for travel. They are put up in packets of five, ten and twenty-five, and each packet is securely wrapped in oil-cloth, sealed with the Chamber of Commerce seal and a leather diploma of red seal leather.

They are ready now for any kind of weather.

Secretary Wiggins has received a communication from the secretary of the newly-organized Chamber of Commerce at Riverside, announcing that rooms have been engaged and a permanent exhibit put in, which will be kept up in first-class shape for the benefit of winter tourists.

A letter from Aladice F. Walker, received yesterday, informs Secretary Wiggins that there is every indication of a full tide of travel setting from the East to Southern California this winter.

Fine apples are wanted now at the Chamber of Commerce to send to the Pomological Department at Washington. G. B. Brackett has written to acknowledge the receipt of some fine specimens of Ben Davis and winesap apples sent for identification.

Mr. Brackett says they are excellent typical specimens of those particular varieties of apples, but that he has some from both Oregon and Idaho that rival them in size and appearance.

Secretary Wiggins is now ready for apples that will cause Oregon and Idaho to hide under their own trees and wish they had done so.

Twenty-five varieties of magnificent chrysanthemums were placed in the chamber yesterday by Mrs. O. P. Foy.

H. Jevne has placed on exhibition a glass case filled with bottles of fine olive oil from the La Crescenta brand, bottled expressly for him.

DEATH OF PROF. MORE.

Committed Suicide by Shooting Yesterday at Cuernavaca.

Prof. Ira More, formerly principal of the State Normal School, committed suicide yesterday at his home in Cuernavaca. It was at first reported that the unfortunate man had been found dead in his bed with his throat cut, but Cuernavaca is said to be the scene of many deaths that result from a pistol shot instead of the slash of a razor.

Prof. More is said to have been in fairly good circumstances, and his suicide is attributed to despondency and ill-health. A year or two ago he had a stroke of paralysis, and for ten years greatly shivered and in a condition which made parades possible at any time. He also suffered from chronic dysentery, contracted during the war.

During the rebellion, Prof. More commanded a company of volunteers, made a speech at a meeting in Bloomington Normal School in the Illinois Thirty-seventh Regiment. The Bloomington Normal School was organized by him in 1857, and he occupied the position of vice-principal until the war broke out in 1861. He went to Minnesota in 1862, and organized the Normal School at St. Cloud. Afterward he came to California, occupying the position of professor in the San Jose Normal School until 1883, when he was made principal of the State Normal School at Los Angeles, a position which he held until 1887.

RODRIGUEZ CAPTURED.

HE IS DISCOVERED AMONG THE MEXICAN STRIKERS.

To be Taken to Yuma Today—Ten of Wilder's Assistants Leave for San Diego—Remaining Seven Set Free—Will Bid Us "Adios" Today.

"The Times Almanac." From now until January 1, 1898, this almanac will be given free with every prepaid subscription of \$1.25 to subscribers to The Times, or with every yearly subscription (\$1.50) to the Saturday Times and Weekly Mirror, or will be mailed, postage paid, to any address upon the receipt of 15 cents each.

Peniel Hall Missionary Training School will commence November 1. Mr. Jeffries' vocal class, Mondays, 6 p.m.; musical classes, 4 o'clock, Wednesdays.

Times Office—Fridays, Saturdays, 11 a.m. to 12 noon; Fridays, Saturdays, 11 a.m. to 12 noon; Sundays, 11 a.m. to 12 noon; Wednesdays and Fridays at 2 p.m.

Ladies, if you want to save money, buy your ladies' and children's winter underwear at the Unique. We are closing out this department, and are selling all this season's new, fresh garments at reduced prices. You can afford to miss it at the Unique, 247 South Spring street, near Third.

The Unique is prepared to do on short notice any kind of plain linotype composition for 10 cents per thousand ems. Brief work for 15 cents per thousand.

To contractors and builders—Wanted, 100,000 feet of second-hand lumber suitable for framing. Call at once at 102 East First, or The Miner.

The new high-class bicycles, for ladies, are \$35 superior to anything ever offered at such a price. H. O. Haines, 121 North Broadway.

Simpson Church will hold a reception for its new pastor, Dr. Hartley and family, this evening. The public is cordially invited to attend.

Ladies about to buy shoes should look at the cushioned shoes reduced from \$5 to \$3 at Howell's, under the National.

Special—Finest cabinet photos reduced to \$1 and \$1.25 per dozen. Sunbeam, No. 128 South Main street.

Do you wear a large shape? Selling out large shapes very cheap at Howell's under the National.

Watch for next "Saturday's Trade Shows." Some great bargains.

Underwear bargains. The Unique. Only the best. The Nadene Craft. Underwear sale. The Unique.

There are undelivered telegrams at the Western Union office for Martin L. F. G. Allen, Charles R. Scott, H. B. Perry, Chapman realistic.

At Los Angeles, a party of Argentines are here to get for selling lottery tickets. A large quantity of tickets were also noted as evidence.

George Sloan, the young man who attempted to pass a Confederate \$100 bill, was given a six months' furlough by Justice Morrison yesterday afternoon and released.

Harry King was arrested at the inauguration of Executive Officer of the State of California, with party leaders. He is accused of stealing a horse from a Chumash farmer.

Peter Lippman was given a sentence of \$50 or forty days by Justice Morrison yesterday. Peter is overly fond of having his wife, and is now serving a thirty-day State sentence for a previous offense of the same kind.

David Ranch and Sam Morris, who were arrested for disturbing the peace at 11 a.m. this morning, Wednesday night, were fined \$50 or twenty days each in court yesterday. Sam found fit and was released, but Dave was less fortunate.

Mr. R. A. Dean of Santa Monica reported the loss of a ladies' gold watch engraved with three initials at the Police Station last night. He could not state positively whether he had lost or found it. In fact, it may have been dropped on either Second or Main street.

The City Union of the W.C.T.U. will meet with the High Heights Union at the Presbyterian Church on Chicago avenue this afternoon and evening. The afternoon session will be in the interests of the local work and the evening will be devoted to music and an illustrated lecture.

Victoria Martinez, a Mexican woman of 40 years, was found dead in her room at the Roma Vista House on West High street, yesterday afternoon. The body was removed to Keegan & Brown's undertaking establishment, where an autopsy will be held. Dr. J. M. T. Tamm, the coroner, was found in the room, which carried out the theory of suicide advanced in other inmates of the house.

INDUSTRIOUS FRUIT GROWERS.

Plan of Organization Formulated by the Committee.

The committee appointed by the convention of dried-fruit growers to formulate a plan of organization, with constitution and bylaws, for the proposed Southern California Dried-Fruit Growers' Exchange, met yesterday in the chambers of the Chamber of Commerce. The same committee, including Messrs. C. C. Thompson, A. F. Griffith, L. T. Cleary, J. B. Landersman and F. G. Douglas, vice-president of the Southern California Fruit Growers' Exchange, was called in to confer with the committee soon on the proposed methods of organization.

After full discussion, it was thought advisable to organize Southern California into districts, with a central exchange at Los Angeles, the whole association to be known as the Southern California Dried-Fruit Growers' Exchange. The eleven districts are to be organized as follows: San Bernardino, Orange, Riverside and San Diego counties, one each for Ventura and Santa Paula, and one for Los Angeles county; one for that portion north and east of the city, which includes San Fernando, Burbank, Leimert Park, etc.; one for the territory around the city of Los Angeles; two for the region north and east, and one for Antelope Valley.

With regard to the plan of organization, the committee decided to adopt the general lines of the Southern California Citrus Fruit Growers' Exchange and the same, with the exception that the dried-fruit trade is a practical success and hence it was thought advisable by the committee to work in harmony with the Citrus Exchange, and to employ largely its machinery. The central exchange is to move toward the general office of the association, prepared to report at the next meeting.

The committee adjourned until next Wednesday at 10 a.m., when it will meet at the Chamber of Commerce to complete bylaws, form of contracts, etc., to be recommended to the local associations. It is probable that all the preliminary work will be done in time for the committee to make a full report at the adjourned meeting of the convention, which will be held Wednesday, November 11.

Six Celebrities.

Marshall Contractors started yesterday for San Francisco with six Chinese ordered deported by United States Commissioner Knobell of San Diego. The men, who answer to the musical names of Yu Yek, Hui Tong, Ma Sung, Chon Chang, Wu Kao and My Wei, were bound to Los Angeles by United Marshall Contractors.

Dangerous Lard

Lard at its best is unwholesome, indigestible. It makes food shortened with its soft and greasy. At its worst, it is unhealthful and filled with dangerous bacteria. It is condemned by every medical and culinary authority.

Every food scientist agrees that vegetable oil is nutritive, digestible, and free from disease germs.

Healthful COTTOLENE

is composed mainly of refined vegetable oil. It is nutritious and palatable. Food shortened with or fried in it can be eaten by anyone without harmful results.

The grease is sold everywhere in cans—10 pound, 50 pound, 100 pound, 200 pound, 500 pound, 1,000 pound, 2,000 pound, 5,000 pound, 10,000 pound, 20,000 pound, 50,000 pound, 100,000 pound, 200,000 pound, 500,000 pound, 1,000,000 pound, 2,000,000 pound, 5,000,000 pound, 10,000,000 pound, 20,000,000 pound, 50,000,000 pound, 100,000,000 pound, 200,000,000 pound, 500,000,000 pound, 1,000,000,000 The Fraternal Field.

Masonic.

THE Master Mason degree was conferred by Pentapha Lodge, No. 202, Tuesday night, and the same degree by Southern California Lodge, No. 278, on Wednesday evening.

Affairs are very quiet at the temple this week.

Sunset Lodge, No. 290, officiated Friday last at the funeral of C. G. McNamee, late a member of Spar Lodge, No. 69, F. and A.M., of Aspen, Colo.

Charles S. Perham, a member of Warren Lodge, Boston, Mass., who died in this city last Friday, was buried Saturday under the auspices of Hollenbeck Lodge, No. 319.

Frederick M. Lippincott, an old resident of W. B. Dole, a well-known citizen of Pomona, who died in that place last Saturday, was held Wednesday under the auspices of the Pomona Lodge, F. and A.M.

South Gate Lodge, No. 320, F. and A.M., will confer the Fellowcraft degree this evening.

Hollenbeck Lodge, No. 319, F. and A.M., conferred the Entered Apprentice degree on two candidates Tuesday evening.

Pentapha Lodge, No. 202, F. and A.M., officiated at the funeral of Herman Vinton on Thursday morning.

At the Supreme Council of the Ancient Accepted Scottish Rite Masons at Washington, recently, Past Grand Master H. S. Orme and S. Conrad of this city were passed as eligible to receive the thirty-third or highest degree of Masons.

Los Angeles Council, No. 11, R. and S.M., will confer the degree of Royal and Select Master next Tuesday night.

Signet Chapter, No. 57, R.A.M., failed to have any work this week, as was contemplated, owing to unavoidable absence of the candidates.

The Eastern Star.

SOUTH GATE CHAPTER, No. 133, will hold stated meeting next Tuesday night, at which time the degree will also be conferred, and an election of officers take place.

Mr. and Mrs. Lewis H. Bonner of Pasadena were made the recipients of a pleasant surprise at the hands of the members of the Pasadena Chapter and other friends, Monday night, upon the occasion of their twenty-fifth wedding anniversary.

At the session of the Grand Chapter in San Francisco last week, Mrs. Minnie J. Greenman, Worthy Matron of Acacia Chapter, No. 21, was elected to the office of Grand Conductor, and Lizzie Drake of Pasadena as Grand Martha.

Odd Fellows.

GRAND SECRETARY GEORGE T. SHAW, in the course of his visit in the city last week, favored this department with a copy of the proceedings of the last session of the Grand Lodge of California. It is a work of about 400 pages, and contains much valuable information respecting the order at large, as well as in California. Among other features it is of interest that so many lodges own buildings of their own in the State, and of the worth of the same the lodges of Los Angeles can find their list, with half yearly values at \$100,000. San Francisco lodge property is valued at \$75,000, and Stockton at \$70,000. In Los Angeles county the proportion of Odd Fellows to the voting population is 1 to 19. The highest average is in Nevada county, where the proportion is 1 to 4.

In addition to the large membership of the United States, the order is not by any means confined to this country. The following lodges exist in foreign countries: Canada, 14; Chile, 3; Cuba, 4; France, 2; Italy, 1; Japan, 1; Mexico, 3; New Zealand, 1; Peru, 1; Philippines, 4; Portugal, 2; Honolulu, 2; California, 1.

At the session of the Grand Chapter in San Francisco last week, Mrs. Minnie J. Greenman, Worthy Matron of Acacia Chapter, No. 21, was elected to the office of Grand Conductor, and Lizzie Drake of Pasadena as Grand Martha.

Golden Rule Lodge, No. 160, had initiatory work Monday evening.

The Rebekahs.

COLUMBIA LODGE, No. 194, had the pleasure of initiating into its ranks Past Grand Patriarch J. T. Doran on Monday night.

On Thursday afternoon members of Arbor Vitae Lodge, No. 62, met at the residence of the Noble Grand, Mrs. M. A. Wright, for the purpose of organizing an I.O.O.F. Home Sewing Circle. The following officers were elected: Mrs. M. A. Wright, President; Mrs. Annie L. Dell, Vice-President; Mrs. Anna C. Bauer, Secretary; Mrs. Anna C. Bauer, Treasurer.

Rebekahs will meet every Thursday afternoon at No. 440 Philadelphia street for the purpose of making garments, etc., for the orphans at Gilroy.

The Orphan's Home at Gilroy was dedicated with appropriate ceremonies Wednesday, as detailed in the Associated Press dispatches.

Knights of Pythias.

THE "scare" sent out by the Associated Press last week to the effect that the funds of the Endowment rank were in a bad way, deceived nobody who was at all interested in that branch of the order. The funds are all right.

The Redlands Company, Uniform Bank, will be in session on Saturday morning, giving a grand entertainment of Al Horak Temple, D.O.K.K., a sketch and half-tone of M. A. Dunton of San Diego, from whom the camp at Santa Monica was named, and also the poem written and read by A. H. S. Perkins in recitation to the Misses Rathbone in this city.

Purity Temple, No. 2, Rathbone Sisters, will give a box-lunch social and entertainment at Pythian Castle Hall Saturday night, to Knights and their ladies.

Knights Lodge, No. 10, entertained its friends with a social, smoker and card party Monday night, and proved to be a very enjoyable affair. The Third Regiment Band was present and rendered numerous selections, and other features included recitations by Messrs. Rathbone and Perkins, reading by G. S. Adolph, harmonica by L. Stanton, instrumental selections by Stevens, Cooper and Robinson, and other features.

Forty names have been secured for a new lodge at Palo Alto, which will be instituted shortly.

Fireworks destroyed all the property of Damocles Lodge, No. 32, of Winters, and Park Lodge, No. 46, of San Luis Obispo.

Past Chancellors F. B. Ellwood of Alhambra and N. A. Dalmatine of Pasadena were recent visitors to San Francisco.

Members are cautioned against one Arthur Thompson, claiming to be a member of a Chicago lodge; also one C. H. Noyes, claiming to be a member of a lodge at Sterling, Ill.

Past Chancellor F. B. Gordon is the promoter of a scheme for a competition between the lodges of Southern Cali-

ifornia, during the session of La Fiesta next spring, for the exemplification of the work in the rank of Knight, and is making good progress toward that end. He is meeting with good success in his efforts and the affair when brought off will prove a highly interesting and profitable one for the members of the

Samson Lodge, No. 148, conferred the rank of Page upon two candidates on Monday night, and will confer the rank of Esquire next Monday.

Marathon Lodge, No. 182, will confer the rank of full amplified form next Tuesday night.

Al Horak Temple, No. 75, D.O.K.K., will hold a meeting next Wednesday night at Pythian Castle Hall.

Loma Lodge, No. 158, of National City, was visited by the team from the State Lodge, No. 152, of San Diego, Monroe night, who participated in the conferring of the Knight rank.

Los Angeles Lodge, No. 205, will confer the rank of Knight this evening in full amplified form.

Knights of the Maccabees.

THE Knights and their friends were given reception by Santa Monica Hive, L.O.T.M., last Monday evening.

Deputy Supreme Commander Henry Santini Santa Monica Tent on the 23d, California Tent, No. 6, on the 22d, and Royal Tent, No. 21, last Tuesday night.

Los Angeles Tent, No. 2, elected two, received two applications for initiation and one by card Wednesday night.

A fine exemplification of fraternal love was given this week by Los Angeles Tent, No. 2. A member of that tent, who died recently, gave his time previous to his death allowed his dues to lapse, and consequently had no claims upon the order, but the members hearing that he had left a wife and six children in straitened circumstances began inquiry, and at the meeting of the tent Wednesday night the members voted to make a contribution to the wife and children, and authorized to call upon the lady and render her such assistance as she required at the expense of the tent, and to look after her needs in the future. This he did, and the tent will see to it that she does not come to want. That's fraternity, and speaks volumes in praise of No. 2.

Woodmen of the World.

A FIESTA CAMP, No. 63, received a number of applications for membership Monday night. It is expected that this camp will have its initiation work next Monday night.

E. C. Lockard of San Bernardino, special organizer for the order, is in full organizing members and meeting with good success. He expects to institute a new camp in the city at an early day.

The preliminary organization of a circle of the Women of Woodmen was effected at the hall of La Fiesta Camp, No. 63, on North Main street, Mrs. M. Southwick, D.H.G. The following officers were elected: Mrs. Frances Bishop, Past Guardian; Mrs. Jennifer Clark, Guardian; Mrs. Sarah E. Stamm, Adviser; Mrs. Margaret Walker, Banker; Mrs. Maud Crawford, Clerk; Mrs. William McCollum, Magician; Dr. A. B. Newkirk, Physician. The final institution will occur later.

Grand Trustee Frank Sabichi of this city and Henry Ryan of San Diego were callers at the Grand Secretary's office last week.

A movement is being inaugurated for a contest in exemplifying the unwritten work of the order by the three parishes of the city, which is to occur at a very early day. The prize will be a banner.

Ramona Parlor, No. 109, will have several candidates for initiation next Monday night.

There are rumors of still another parlor to be instituted in the city soon.

Los Angeles Parlor, No. 45, indulged in a mock initiation Wednesday night, which created considerable merriment.

The parlor of the city will take steps next Wednesday night for the organization of a bureau of relief in Los Angeles.

The Fraternal Brotherhood.

THE members of the city lodges enjoyed themselves as the guests of East Side Lodge, No. 11, Tuesday night. Los Angeles Lodge, No. 1, adjourned and attended in a body, taking two candidates along for initiation, and one was also initiated from No. 11. Supreme President C. P. Dandy was present and, with the assistance of the members, exemplified the work in good shape. A number were also present from the Pasadena Lodge. Refreshments were served.

Pomona Lodge, No. 26, was instituted by W. S. Spencer, D.S.P., last Saturday night with a good charter list. The following officers were elected and installed: T. H. Johnson, President; J. Simpson, V.P.; F. W. Ballou, Secretary; M. Southwick, D.H.G. The following officers were elected: Mrs. Frances Bishop, Past Guardian; Mrs. Jennifer Clark, Guardian; Mrs. Sarah E. Stamm, Adviser; Mrs. Margaret Walker, Banker; Mrs. Maud Crawford, Clerk; Mrs. William McCollum, Magician; Dr. A. B. Newkirk, Physician. The final institution will occur later.

Several supreme officers and a large number of the members of the city lodges will pay a fraternal visit to the lodges at Redondo Monday night, exemplify the work and indulge in an entertainment and refreshments.

Mrs. E. A. Richmond is preparing for the institution of a new lodge of the Order of H. H. Alvarez.

There is also a demand for a new lodge at Santa Rosa.

A number of the members of Monroe Lodge visited the Covina Lodge Wednesday night, and assisted in dedicating their new hall.

Monroe Lodge, Degree of Honor, will initiate a class of thirty-six on the night of November 4.

Orange Grove Lodge elected Finance Officer Wilson to the office of Recorder, to fill vacancy caused by the resignation of Dr. F. W. Balfour.

James Booth, in his capacity as one of the Committee on Laws of the Grand Lodge, has been busy this week passing upon amendments to the by-laws of seven different lodges in the State.

Los Angeles Lodge recently added twenty members to its roll.

Mrs. E. A. Richmond is preparing for the institution of a new lodge of the Order of H. H. Alvarez.

There is also a demand for a new lodge at Santa Rosa.

The thirty-eighth annual session of the Grand Lodge of California will meet in Pasadena November 9 to 12.

The general committee having the arrangements in charge has appointed strong working sub-committees on reception, decoration, entertainment, etc., and it is hoped to make this the most successful session ever held.

The meetings will be held in the Methodist Church, or Tabernacle, corner of Colorado street and Mareno avenue. Tuesday evening, November 9, will be devoted to a public reception, to be held in G.A.R. Hall, on Colorado street, and an entertainment will be given on the night of the 10th.

Los Angeles Lodge, No. 55, will initiate a class of thirty-six on the night of November 4.

Los Angeles Lodge, No. 55, conferred the Workman degree Wednesday night.

Several supreme officers and a large number of the members of the city lodges will pay a fraternal visit to the lodges at Redondo Monday night, exemplify the work and indulge in an entertainment and refreshments.

The Other Half Just Commencing.

tion was received and referred for action.

F. A. Ceville was elected Reporter, vice W. H. Herman, resigned on account of press of other duties. D. H. Lusken was elected Assistant Dictator, vice F. A. Ceville.

Reports from the Grand Lodge show interesting work being done in adding to the membership of the order in the State.

Royal Arcanum.

UNSET COUNCIL, No. 1074, had one initiation and two applications for membership Monday night.

So pleasant was the social given by Los Angeles Council, No. 1489, last week, that it will give another to members of the order, and their friends on the evening of November 18.

Monrovia Council will entertain the members of Los Angeles Council, No. 1489, on the evening of the 12th, at

Monrovia.

Improved Order of Red Men.

OCOPAH TRIBE, No. 81, at its last council conferred the Hunter's degree upon two, and one pale face

was elected to membership. A number of visiting chiefs were present. The Adoption degree will be conferred to night.

Knights and Ladies of Honor.

SUPREME PROTECTOR LOCKHARD has issued his first circular for the current year, in which he says:

"While it is not to be expected that our 75,000 members will find all the labor performed by the Supreme Lodge in perfect accord with their several ideas, still it becomes the duty of each and every member to sustain the action of the Supreme Lodge, and give it their hearty support, with assurance that the Supreme Lodge did its work honestly, fearlessly, and in the belief based on experience gained in that it was for the best interests of the 'queen of movement orders.'

Assessment No. 62 has been levied, delinquent November 30.

Order of Pendo.

AT THE meeting of Angelelo Council, No. 12, last week, two candidates

were initiated and four applications

received. This council is working hard to be entitled to send a representative to the Supreme Council, which meets in San Francisco next January. This council hereafter will meet every Thursday evening, for, no doubt, it will have degrees to confer every week, now that Deputy Supreme Organizer McPherson is here. The Social Committee has to get a good programme for Thursday, and it is the intention of Angelelo Council to give an open meeting every second Thursday in the month, which will end with a social hop, and will be for

MINES AND MINING.

THE INSIDE FACTS ABOUT THE WEDGE MINE.

Mining Register of the State Mining Bureau—San Gabriel Mines—The Perris Section—Golden Cross. Cost of Treating Ores.

Encouraging news continues to be received from the mining sections of Southern California, all along the line, from Acton on the north to Yuma on the east. Scarcely a day passes without a good strike being recorded.

THE WEDGE MINE.

The Wedge mine of Randsburg continues to be the subject of much speculation among local mining men. Until a couple of months ago this stock was selling on the local stock exchange at about a dollar a share, and had been paying a regular monthly dividend. Then there was a sudden drop, the price running down to 3 cents, after which it has ranged from 2½ to 4 cents a share. The drop was coincident with the loss of a number of miners by Dr. Pepper, who got into financial difficulties in consequence of the notorious Kapsus affair, and was crowded by his bank, whereupon he had to give up the stock.

All sorts of rumors have been afloat in regard to this mine, many of them sensational and absurd. One of these was that the Farmers' and Merchants' Bank had control of about one-quarter of a million shares of stock, and had been hammering prices down in order to get the remainder of the stock. As far as is known, however, a month ago, this report was inaccurate. The Farmers' and Merchants' is about the last bank in the State that would go into a speculative mining deal on a small scale—or any other scale. As was then stated, "The Times," Henry J. Fleishman, the cashier of the Farmers' and Merchants' Bank, held a small block of Wedge stock on behalf of a customer. Since then the management of the mine has been reorganized, Nathaniel Wilshire, who is the largest owner of stock in the mine, having selected a new board. Judge Bell, vice-president, and Mr. Fleishman, secretary. The new officials have an option on a sufficient number of shares to give them the control of the mine. This option they may take up or they may not, according to how the mine develops.

The officials state that it is the intention of the company, as reorganized, to work the mine on a businesslike scale. As the stock is unassessable, it will be impossible to make assessments for improvements, but bonds will be issued to a limited number of stockholders, \$200 to \$2,000 with which a gasoline hoist will be constructed, and other necessary development work pushed. A new superintendent has been engaged. He is Peter McMahons of Colorado, a man who has much experience in mining, and is a graduate of the Columbia School of Mines. A meeting of the stockholders has been called for tomorrow.

It appears that the late superintendent of the Wedge had little knowledge of mining, and was not very judicious in his system of development. A chimney of ore in the mine was followed, and the mine was gutted to pay regular dividends, without any provision for the future. Under these circumstances the stock of the mine became unduly inflated, and when the end of the ore chute was reached, about the time that the Pepper collapse took place, there was, of course, a heavy reaction.

It is the intention of the new management to push work on the mine in a businesslike manner. The deposit on the Wedge is said to be a true-fissure vein, and there is every encouragement to believe that further valuable deposits of ore will be encountered. The shaft is at present 415 feet deep, and will be of much service as a combination shaft, for the operation of the two good mines on each side of the Wedge.

The new management of the affairs of the mine will be conducted in an open and straightforward manner, the stock of the company will be open at all times to the inspection of all stockholders. The State law providing for a tax of 10 cents on certificates of stock will be enforced, in order to discourage the "skiting" of stock in small blocks for speculative purposes.

These are the main things in relation to the Wedge mine, as gathered from inside and authoritative sources.

SAN GABRIEL MINES.

Although on about twenty miles from Los Angeles, the San Gabriel section of the San Gabriel Coast is comparatively a terra incognita to mining men. This section has produced quite a considerable amount of mineral wealth in the past. Two miners who are working ledges in the cañons about fifteen miles above Azusa, state that the ore bodies are growing larger as the work progresses, and excellent specimens are obtained. There is also a ledge of copper, which carries a good sprinkling of gold. The San Gabriel is likely to be heard of yet as a mining section.

THE PERRIS SECTION.

One of the most important mining sections of Southern California is that around Perris, in Riverside county, where mining has been going on for a number of years, on a scale of considerable magnitude. At the Good Hope mine, where a cyanide plant is worked on the tailings as much as \$800 has been secured from the work's worth.

The owners of the Virginia mine purchased a 5-stamp mill in Los Angeles, which is now being put into place, and from which good results are expected.

In the Little Maggie an eight-horse power hoist has been put in, which should be of great value. A new shaft will be sunk to a depth of 200 feet, to explore this mine, which was worked by the Mexicans a number of years ago, the ore being put through an arrasta.

A 10-stamp mill has been ordered from San Francisco by the Gavilan syndicate, which is said to have struck some very fine ore at a depth of 400 feet.

THE GOLDEN CROSS.

The receiver of the Golden Cross Mining and Milling Company of San Diego county, has filed his report as receiver, from which it is learned that this important enterprise now runs nine-hundred stamps, and employs 177 men. The debits of the mine have been paid, and there is now on hand over \$50,000. It represents the profits of three months' operations. The report states that large bodies of free-milling ore are in sight.

A MINING EXCHANGE.

Reference has been made in this department to a mining register and maps, which are to be issued by the State Mining Bureau. The bureau has issued the following circular, giving further information regarding this publication:

It is the intention of the State Mining Bureau to issue a register of the mines and miscellaneous economic minerals of California. It will classify the mines in their general nature, as hydraulic, drift, placer and beach, and give the location and particulars of a public nature of each mine.

The register of quartz mines will contain the name of the mine, the nearest town, its location by section, township and range, and the mine is to be designated on the accompanying map, and will state whether the mine is patented or not. It will give the strike, dip and thickness of the vein

or veins, the general nature of the ore, and character of the foot and hanging wall, the number of men employed, and the name and address of the owner and superintendent. It will show the amount of development which has been made by giving the depth of shafts, inclines, tunnels, or canals, drifts, etc., and will also state the nature of power used. The register of hydraulic, drift, placer and beach mines will likewise give their location and general nature of operation and development.

The register will also contain a list of mills, reduction works, etc., with their character, size, location and name and address of owner and superintendent.

The register of miscellaneous economic minerals will give their location, general character and development, with the names and addresses of the owners and superintendents.

According to the register will be published a map of each county, which is being compiled from the most reliable and recent available data. They will show, as far as can be ascertained at present, the location of railroads, roads and trails, and general topography.

The mines will be designated by a red dot and a number by which the mine may be found in the register. They are too numerous in many parts of the State to admit of their names being printed on the map, and therefore the number is used instead.

Wherever miscellaneous economic minerals exist their names will be printed in full.

It is the purpose of the bureau to compile the vast quantity of information concerning the mining and mineral industry, which has accumulated into as simple and comprehensive a form as possible and make it available for the use of the general public by publishing a register of the mines and minerals, accompanied by county maps, on which they are indicated. The information will be put in the best possible form to be of use alike to the miner, business man and those engaged in all industries.

The information now at hand, vast as it is, is in many respects incomplete.

In order to complete the register up to date, as near as possible a deputy will be appointed in each county with ability and local familiarity with the mining industry of the county in which he resides will make his services most useful.

The mines of the State have become far too numerous to admit of anything like a satisfactory description of each mine in a single volume. The necessary information for such a volume to another will be eliminated by the use of the register; and by the aid of the accompanying map the relative location of mines and mineral deposits may be seen at a glance, as well as routes of travel necessary to visit them. The location, extent and general character of mineral zones and groups of mines may be shown. The information tabulated in the register and indicated on the map may be easily revised from time to time as is deemed necessary, and comparatively easily kept up to date.

One of the principal advantages claimed for the policy of issuing a register and map is the advantage it affords as a basis for future scientific field work. That reliable maps are necessary as a basis for carrying on field work, especially in economic geology, is well known to all in any way familiar with the subject.

As soon as conditions will permit, bulletins will be issued on the following subjects: Chlorination, dry washing, beach washing, dredging, building stones, petroleum and limestones and cement.

MINERAL IN MARIN COUNTY.

Marin is the latest county to come forward as the scene of mining development. Marin is essentially a dairy county, and few people have had any idea that it contains mineral wealth, it is said to be a fact that it contains mineral wealth, and few people have had any idea that it contains mineral wealth.

As soon as conditions will permit, bulletins will be issued on the following subjects: Chlorination, dry washing, beach washing, dredging, building stones, petroleum and limestones and cement.

IDEAL HOME LOCATION.

A New Mexico paper gives the following particulars regarding a company which has undertaken the big job of constructing a tunnel under Pike's Peak.

"It is an American corporation capitalized at \$50,000,000, in 500,000 shares of \$100 each—250,000 shares representing the promoters' interest, having (as a guarantee of good faith) been deposited in perpetuity with the Anglo-American Bank of New York (founded in 1853), in such a way that they can neither be sold nor mortgaged, thereby strictly limiting the benefit of the promoters to the dividends on such shares when the enterprise is in a financial success.

The remaining 249,000 shares, representing the working capital, it is stated have been already issued to capitalists in New York, London and on the continent."

The lots front on Adams, Washington, 20th, 21st, 22nd, 23rd, 24th and 25th Streets, are full size, being 50x150, and 40x180 feet to 15 foot alley. You will not be assessed for any expensive street work. The streets are graded, gravelled and sidewalked in every direction without expense to purchaser, and are sprinkled daily by the city. Building restrictions insure first-class improvements. Do you want to invest in a live district? This leads them all. Eighty new houses built this year. FIVE MORE HOUSES STARTED LAST WEEK. Look at this property and you will not buy elsewhere. Why? Because this is a live, progressive part of the city and has a fine future while other sections are running behind.

Go out on the Central Avenue car, or come to our office and we will drive you out and show you the best opportunity for a profitable investment ever offered to the home seeker or speculator.

We are selling these lots from \$885 to \$1000, on liberal terms of one-fourth cash, balance on or before 1, 2 and 3 years at low rate of interest. For maps and all particulars, apply to

WENDELL EASTON, President.

REAL ESTATE & GENERAL
AUCTIONEERS.

Now is the Time to Buy.

Is the advice of one of the shrewdest business men in the city. "Get property in line with the city's growth and on some few car line and you will make a fine profit on your investment. Los Angeles has doubled in population during the last few years and is growing more rapidly now than ever before. The year 1890 will show a population three times that of 1890." Do not delay and let this opportunity pass, but get in now and buy in the Menlo Park Tract. This section of the city is growing wonderfully fast, is but 12 minutes from Second and Spring streets on the Central Avenue Electric Car. The new electric road on San Pedro Street will get you there in less time, and will add over 20 per cent to the value of your property. This is an

Ladies' Tan Oxford or Southern Tie, \$2.50 grade, for	1.65
Ladies' Tan or Red Oxford or Southern Tie, \$3 grade, for	1.95
Etc. Etc. Everything else in proportion.	

These are all new, fresh goods. This Summer's styles. We are agents for the Edwin Clapp's celebrated shoes for men. The best shoes made, without exception.

Waterman's Shoe Store,
122 South Spring Street.

Diseases of Men.

No Pay required till Cure is effected.

DR. MEYERS.

This eminent Specialist has met with remarkable success during the many years he has been curing the weakness and diseases of men. This great Doctor is world-famed, both for the permanency of his cures and the rapidity with which they are effected.

All contracted ailments and troubles, including those which have become chronic or dangerous from neglect or bad treatment, are quickly cured by Dr. Meyers. Contagious blood poison driven forever from the system, and

LOST MANHOOD RESTORED.

Private book for men only sent sealed free. No charge for advice at office or by mail. Sympathetic blanks free. All letters confidential.

DR. MEYERS is the Specialist for Men for the English and German Hi-Port Specialists.

Private Entrance 412 Byrne Building, Los Angeles.

Office Hours: 8 to 1 daily. 10 to 11 Sundays. 10 to evenings.

ORCHARD, FARM, RANCHO AND STOCKYARD.

Crops and Markets.

THE rain of last week did much damage to the raisin crop in the central part of the State. It is estimated that about a thousand carloads of raisins were spoiled. This should be a lesson to the raisin-growers to make provision for such early storms, which, while infrequent, must be expected from time to time. Some of the raisin-growers in Central California will in future utilize artificial dryers late in the season, by means of which a large quantity of valuable fruit may be saved.

Orchards and alfalfa fields have been greatly benefited by the rain, which has started new feed on the hillsides. The weather has been favorable for general farming, the rain having put the soil in good condition for plowing, and some seedling is being done.

The dried-fruit market continues steady, without any great movement, for the reason that holders are so firm in their demands that it is difficult to make trades. Prunes are quite strong in the East, owing to reports of light crops in France. Raisins have been benefited by the damage done in Southern California by the rainstorm, which has taken a large quantity of raisins out of the market.

In New York there has been a contest between the California fruit receivers and those who handle eastern crops, the former demanding that the sales of California fruits should take the lead. They finally succeeded in enforcing their demand.

The local produce market has been steady during the week without noteworthy changes in prices. Quotations will be found on the commercial page.

The Fig Question.

MONG the important horticultural products of California, the fig industry is the one which has been the least developed. Fresh California figs are good, but the dried product cannot compete with the imported article. Yet the fig thrives most luxuriantly throughout the State, bearing at a very early age and yielding immense crops. As The Times has frequently shown, the main cause for the non-success that has attended the efforts of California horticulturists in placing on the market a first-class quality of dried figs lies in the fact that we have not in this State a little insect known as the blastophaga, a wasp which scatters the pollen from the male fig in the female flowers of the edible fig.

The State Board of Trade has taken up this question, and has addressed the following communication to the Secretary of Agriculture, Mr. Wilson, who has shown a most commendable desire to do everything possible for the introduction of new and valuable crops in this country:

"Hon. James Wilson, Secretary of Agriculture, Washington, D. C.—Dear Sir: The California State Board of Trade is an association of citizens of the State of California, having for its object the encouragement of the industrial interests of the State. With this object in view it solicits your interest in a matter which, if intelligently carried out, must redound to the advantage of this State and to the United States.

"For the fiscal year ending June 30, 1896, there was imported into the United States \$11,300,700 pounds of figs, valued at the port of export at \$639,612, a trifle over 5 cents and 3 mills per pound. This sum does not accurately represent the value of the importation. In October of each year nearly all of these figs are sold in the City of New York; the report on commerce and navigation showing that of the amount named as imported, \$981,251 pounds were imported into that city. These figs are sold at auction and the prices realized are twelve and a half cents per pound. Assuming that the average sum paid was 10 cents per pound, the amount paid to exporters in foreign countries for figs averages about \$1,200,000 a year. We undertake to show you how this sum can be saved to the people of the United States.

"It is well understood that the major portion of fig importations come from Turkey. The statistics of your department show that of the above-named importation, 10,283,906 pounds came direct from Turkey, and 1,034,754 pounds came from the United Kingdom.

"In 1896 there was imported from Smyrna to this State by G. P. Rixford, a large number of cuttings of the so-called Smyrna fig, and 1,034,754 pounds of September 14 regarding figs and figs for importation into the United States. I will consult with Dr. Howard, chief of the entomological division. If what you propose is an absolute necessity in the estimation of our scientists, we will stop at no expense to help you in this matter. Dr. Rixford is absent just now in his travels, and as soon as he returns I will send for him and have a safe understanding with him. If he does not agree with you, I will put him in communication with you, so that you can remove any doubt that may be in his mind.

Very truly yours,

JAMES WILSON,
Secretary.

Esparto Grass.

FROM time to time new crops are recommended to the attention of California farmers, a few of which justify the big claims that are made for them, while a great many do not. One of the latest of these new crops, of which the agricultural papers have had something to say lately, is esparto grass. The Chamber of Commerce has received a copy of the Quarterly Record of the Rural Botanic Society of London, in which is printed a paper read by the secretary of the society on esparto grass. From this paper it appears that the crop is not one which is likely to be enthusiastically received by California farmers.

"It is now well understood that in Southern California the commercial figs that are raised without the aid of a wasp, or blastophaga, the process by which the edible fig (*Ficus carica*) is matured is called capriculture. In a few words, it may be said that the edible fig bears only female flowers, the wild fig (*Ficus carica*) bears male flowers, and grows in Southern California on July 15, among the hours of the edible fig a number of the capri fig, from which proceeds the wasp, bearing the pollen from the male flowers of the capri figs. Following their instinct to lay their eggs, they

enter the edible fig and, finding no flowers in which to lay their eggs, they scatter the pollen from the capri flowers over the stigma of the female flower of the capri fig, the result being that all of the edible figs, all other figs not so fertilized, fail to ripen.

"Mr. Shinn of Niles, Alameda county, and George C. Roeding of Fresno county have impeded the capri figs to the State, resulting in June 15, and July 15. Upon opening the figs the blastophaga were found in abundance. They are to come to grow rapidly and were very vigorous, but all efforts to induce them to enter either of the figs or carica were fruitless.

"It must be understood that the capri fig has three types—first, the immature, second the 'profici,' and third the 'mat. muni.' As Prof. Eisen has shown, the hibernating 'profici' or first crop, has a few male flowers; the second crop, or 'profici,' has many male flowers, many gall flowers and no female flowers; the third crop, or 'mat. muni.' has gall flowers and a few female flowers.

"In the second crop of the Smyrna figs nearly all the flowers are perfectly developed female flowers. It appears that the time of the development of the male flowers in the 'profici' crop of the capri fig is coincident with the state of receptivity of the female flower of the second crop of the Smyrna fig. This occurs in Smyrna, and would occur in California in June or July of each year.

"Enough experiments have been made in California to show that the infestation of the blastophaga in the fig detached from the tree will not be available.

"Prof. Baehr and Prof. Eisen, both of the Academy of Sciences, concur in the opinion that the only means by which we can introduce the wasp into the State is by direct importation of the Picus wasp, or common fig wasp, on containing the pupa of the wasp. Prof. Eisen sent to the State Board of Trade, not less than six times, from Mexico, blastophaga which he found in that country. These wasps were sent to different parts of the State to test the effect of the *Ficus carica* and *F. profici* growing on the San Francisco纪州 as follows in regard to the small amount of harm which he claims can be worked by the use of sulphur.

"Editor Chronicle: Upon reading your article in the Weekly Chronicle of the 16th inst. on sulphuring fruits it occurs to me that this subject is not as well understood as it should be. The sulphur taken up by the fruit in the process of bleaching is almost entirely disengaged while the fruit is still on the tree. What little sulphur is removed in the washing and soaking of the fruit before cooking. The sulphur used upon grape vines disappears in a week's time, although thrown thickly upon the vines, while the smoke only is used upon the fruit bleached. With almonds and avocados, however, there cannot be exposed long to the sun, without becoming too dry for a good quality, and if the sulphur penetrates the shell the flavor is lost. As pears dry quickly, just sufficient to bleach them should be used: so with small apricots."

The foregoing letter was sent to Prof. Hildgart of the University of California, who replied as follows:

"Editor Chronicle: In regard to the above communication, I would respectfully call the attention of your correspondents to the fact that the infestation of the fig detached from the tree will not be available.

"It is the consensus of opinion among scientific and practical persons who have experimented that the only feasible method of introducing the wasp into the State is by the importation in the winter months of the capri fig tree.

"The method of effecting the establishment of the growing trees, with fruit containing the wasp, may be left to your judgment. But we beg to suggest that some one of experience in the culture of the capri fig should be sent to Smyrna and engage the culture of the capri fig. They could be grown in large quantities, but all efforts failed to induce them to enter the Smyrna or capri fig.

They could be grown in large quantities, but all efforts failed to induce them to enter the Smyrna or capri fig.

"It is the consensus of opinion among scientific and practical persons who have experimented that the only feasible method of introducing the wasp into the State is by the importation in the winter months of the capri fig tree.

"The method of effecting the establishment of the growing trees, with fruit containing the wasp, may be left to your judgment. But we beg to suggest that some one of experience in the culture of the capri fig should be sent to Smyrna and engage the culture of the capri fig. They could be grown in large quantities, but all efforts failed to induce them to enter the Smyrna or capri fig.

VETERANS' UNIFORM.

GOV. SMITH SAYS IT MUST NOT BE DISHONORED.

Change in Policy in Soldiers' Home Management—Sale of Beer at the Canteen Keeps Members from Going Astray for Something Stronger.

The new administration at the Soldiers' Home recently changed the hours during which beer may be sold at the dispensary on the grounds, so that the place is not closed till late in the evening. Steps have also been taken to discourage home members from disgracing their uniform by appearing in it reeling in drunken abandon, in Santa Monica and elsewhere. These changes have stimulated interest in the question, whether the administration has other and more far-reaching changes along the same line in view. Col. Andrew J. Smith, governor of the home, was seen yesterday regarding the matter. When interrogated he said: "This institution is not a reformatory. The men who live here have reached an age in life where their habits are fixed. They cannot be molded as younger men can. Therefore, we cannot fittingly be dealt with in the same manner as it would be best to deal with men of less mature years. It is for this reason that it is not deemed best to issue general orders for their conduct, such as might properly be issued in the regular. This place is not a prison."

"Such being the conditions, the members of the home must be dealt with, to a large extent, individually rather than collectively. I feel it duty as the officers in charge to take an individual interest in their several cases."

"I scarcely need mention the fact that a man, after taking a drink or two of liquor, feels that sense of exhilaration which impels him to do some foolish thing. Sometimes he wants to give his money away recklessly, or to do something worse. I regret the need of a beer dispensary on the home grounds, but I believe it keeps a great many of the men from stronger temptation. The beer which we sell in the canteen, you know, must have not less than 2 per cent of alcohol, an ordinary percentage is 2½. The profits of this canteen, as we call the place where beer is sold, go for the amusement and other benefits of the men in the institution, as would not be the case if the money elsewhere were spent for drink. Having a dispensary open later in the evening—we close it now at 8:30 p.m.—has the good effect of keeping the men on the home grounds, whereas if the canteen were closed at an early hour some of them might be unable to resist the temptation to go to Santa Monica or elsewhere, and get thoroughly intoxicated with the stronger liquors to be procured at those places."

"What is your personal opinion in relation to the sale of beer to members of the home?"

"The board of managers of National Soldiers' Homes, after repeated experiments in several homes, ascertained from the reports of the governors, by whom such tests were made, that drunkenness increased in all these institutions on an average of over 60 per cent when beer was not used, that members addicted to the use of alcohol in any form were entrapped into the vilest deadfalls, where they committed all sorts of excesses; that they were guilty of violations of the ordinances of the cities adjacent to the home; that they were often thievish and robbed, to their great injury mentally, morally and physically, as well as financially. And so the board of managers reluctantly authorized the sale of a light beer only in the different homes, as a means of curbing the members as the management might enforce."

"Personally, I am opposed to the sale of beer, but, having the good of my comrades nearest to me, I permit its sale, believing—and, I had better say, knowing—that it is for the good of all the members who use alcohol in any form."

"Have you issued any orders to the men not to go to Santa Monica in uniform?"

"No, I have not. What I have done, however, has been to tell the more serious offenders that if they are going to places away from the home to make public spectacles of themselves by getting beastly drunk, they are not to do so in the home uniform. That uniform must not be disgraced by any such conduct. If they will persist in going from the home to such places, let them go in citizens' clothes and not in the uniform provided by a grateful country for the self-respecting, honorably-discharged veterans. A very large proportion of the men here is composed of those who never touch liquor. A few of them, remaining about Santa Monica create the impression that the members of the home are a set of toppers, which is very far from the truth."

When asked if he had in view any further steps looking to the prevention of the drugging and robbing of home members at some of the outside resorts, the governor said he had not, but he interviewed on that point, at the present, but said: "Whatever I feel is best for these veteran wards of the nation I shall do in their interest."

"I am gratified," said he, "to find on the statute books a law prohibiting the selling of liquor within a mile and one-half from the exterior lines of asylums, homes, etc. This is a great protection to the weak-minded among the veterans, saving from over-indulgence those who have not the power to control and those who deserve our sympathy and not condemnation."

"I am equally gratified to learn that the officers of the county are determined upon the enforcement of this law."

Councilman's Wife Finds a Baby.

Shortly after 4 o'clock yesterday afternoon a stylishly-dressed woman appeared at the Police Station with a two-year-old little girl toddling at her side. The woman was Mrs. L. M. Grider, wife of Councilman Grider. She explained that her attention had been attracted by the baby, who was wandering aimlessly about at the corner of Second and Main streets. About an hour later she again discovered the child, this time at Fourth and Broadway. Mrs. Grider became convinced that the baby was a lost child, and took the tot in tow. At the Police Station the baby was found to belong to J. D. Martin, who had reported the loss early in the day. The little one was returned to her father last night.

THE CURSE

Of mankind—contagious blood poison—claimed as its victim Mr. Frank B. Martin, 926 Pennsylvania Avenue, Washington, D. C., and the usual physician's treatment did him not the slightest good. His condition reached that deplorable stage which only this terrible disease can produce.

THE CURE

After all else failed, was at last found in S. S. the greatest of all blood remedies. Eighteen bottles removed the disease permanently, and left his skin without a blemish.

SSS
S.S. is guaranteed

NEWS FROM SOUTHERN CALIFORNIA TOWNS.

PASADENA.

NORTH PASADENA WOMAN ARRESTED FOR SELLING LIQUOR.

Jacob-Ayers Wedding — Primrose Club's Initial Dance — Too Speedy Hand Cars — Laundry Visit Pasadena — Symphony Club Meeting — Brevities.

PASADENA, Oct. 28. — [Regular Correspondence.] Mrs. D. W. Stephens was arrested this afternoon on a warrant served out by Deputy Sheriff Brighton, charging her with selling intoxicating liquor. Mrs. Stephens a few weeks ago opened a restaurant in North Pasadena, on Fair Oaks avenue, a short distance from Hotel La Pintoresca, after which but a short time before it began to do well and refreshments were being served to a larger extent than solid refreshments. Deputy Sheriff J. W. Brighton investigated the rumors, and, as a result of his investigations found that Mrs. Stephens had no license to sell liquors, and he became satisfied in his own mind that she was doing so. Notwithstanding the excellent discipline maintained at the public schools, Miss Helen Dewey had the misfortune to break an arm while playing at the Sixth-street school Tuesday.

Court Pomona, I.O.P., is preparing for a social gathering next Wednesday, when the address by High Chief Judge McElfresh, and will give a ball.

ORANGE COUNTY.

POOR ATTENDANCE AT THE SANTA ANA RACES.

Hannah, the Jockey, Getting Better. Huvey, the Driver, Very Serious Hurt — Judd Makes a Sensational Finish.

SANTA ANA, Oct. 28. — [Regular Correspondence.] Another day of wind and dust and the result was a slim attendance upon the races. About 2 o'clock, however, the wind died away, giving the horses and themselves a chance to finish the people with some excuse to stay away. At the start of the first race was the 2:40 trot and the great drive made by Felton behind Judd to win first place in the fourth heat.

It might well have been called Orange County day, for nearly all the horses on the track were owned by local turfmen. Yet the attendance was less than that of the two preceding days.

The decorations were solely of chrysanthemums. English ivy and similar plants were most pleasing. The prevailing colors throughout the house, other than the dining-rooms, were pink and white. The dining-rooms were decorated in white. The bride wore a handsome organdy over white silk. The ceremony was performed by Rev. N. H. G. Pitt, after which a few intimate friends sat down to supper.

The bridegroom was Miss Ethel Ayers, sister of the bride, and J. W. Deeter, Los Angeles, was the best man. The wedding souvenirs were the recipients of many handsome presents.

Mr. and Mrs. Jacobs will be at home at No. 205 Montana street after November 11.

PRIMOIRE CLUB DANCE.

The opening dance of the season of the Primoire Club was held in the Auditorium of the Club, Oct. 28, attended by about forty couples, composed of the young society people. The hall was finely decorated for the occasion with pointed plants, ivy and similar decorations. The band was led by Mr. and Miss Max Kienly, Schallinger's Orchestra furnished the music.

SYMPHONY CLUB MEETING.

The first meeting of the season of the Pasadena Symphony Club was held today at the residence of Mr. and Mrs. P. G. Grimes.

Attended only by the ladies of the club, the programme embraced a paper on "Russia," and the Italian Opera," by Mrs. Lett-head, a paper on "Hayden and His Music," and a paper on "Music and Musical Topics" by Miss Greble, followed by a general discussion. Next Thursday's musical programme will be played by the full orchestra, under the direction of Prof. Harley Hamlin.

TOOT-SYWEET HAND CARS.

Complaint is made by many that the workmen in the Santa Fe road cross Colorado street in the Santa Fe at a point where the horses are slow, due to the fact that there is a heavy grade and the flagman has no notice of the car coming, until it comes in sight and then has to stop to allow the car to him to pass the crossing. Shortly before 6 o'clock this evening an accident was narrowly averted, as a carriage just crossed the track by less than a foot, when the hand car, with four or five men rushed past at a high rate of speed.

PASADENA BREVITIES.

George Boekens, the porter of Hotel Mitchell, who was arrested late last evening on a charge of having sold liquor to a dry artist, spent the night in jail, and was released by Judge Rosister today, the evidence of guilt being insufficient to show probable cause.

The Culture Club was entertained this morning at the home of Miss Virginia Rowland, on South Marengo avenue, with a talk by Dr. George S. Hull, on "The Effect of the Social Life Upon the Mind."

Three tally-ho loads and two three-seaters went with laundrymen and their friends, who had been attending the concert. The Angelines enjoyed a drive around Pasadena to-day and then visited Mt. Lowe and Alpine Tavern.

An meeting of the Anti-saloon League in the room of the Y.M.C.A. this evening it was announced that the local pastor, devoted to the anti-saloon cause, on November 28.

Pomona, Calif., will open tomorrow night at the Fair Oaks avens. Misses Whistler and Brown, who have labored with great success in Peñuel Mission, Bureka, the past year, will have a short time in the city.

Harold Lewis left his horse unhitched to-day and Officer Gofman arrested him. For this, after ignoring the ordinance Judge Rosister assessed Pleasit \$5.

Mrs. Mrs. Riggs of Delacy street, while driving yesterday, sustained the fracture of both bones of her right leg, by the horse kicking over the dasher.

Maj. Bangham is circulating a paper and sending subscriptions for buying magazines and binding old ones for the reading room of Co. L.

At Santa Ana, Saturday, Kiamath will race against Carlie Carne, a faster horse than a very thorough street drill this evening.

Ticket No. 34 won Mrs. Martha Gamble's purse.

Mrs. Ellen Burns, who died at her home, No. 278 North Marengo avenue, will be buried from the Catholic Church, corner Pasadena and Balfourstone street, next Saturday at 10 o'clock.

SANTA BARBARA COUNTY.

Large Subsidies Required by the Union Beet Sugar Co.

SANTA BARBARA, Oct. 28. — [Regular Correspondence.] The agriculturists of the northern portion of the county are somewhat anxious to have the Union Beet Sugar Co. build a factory here, and before they will negotiate the location of the factory so much desired, 5500 acres alone to be granted by these men and the other 1000 by San Luis Obispo farmers. Action by the company will be delayed until November 10. It is required that the company do this, that time the proposition will no longer be considered. The opinion prevails that if the land-owners can do so much, they will build there, but own sugar companies.

George Nelson, who was seriously wounded last Sunday by the accidental discharge of his shotgun, was removed to the hospital in San Luis Obispo, where he is in a dangerous condition, with a shattered skull and a gun-wound, shreds of clothing were blown into the wounds and there is danger of blood poisoning.

George Tolero was arrested yesterday for disturbing the peace while intoxicated, and attempting to strike another man with a hatchet.

The way is a hard road to travel. Both gates on the Hollister estate are locked to all but the stages. It is possible that the avenue through the San Julian will also be closed.

The Natural History Society will meet Saturday evening at 8 o'clock, and will give a councilous talk before the members.

Miss Lizzie Miller of Santa Barbara street entertained the Crokinole Club last evening.

Miss Belle Ott of La Vina street was greatly surprised by a large party of big

friends last evening. Dancing, games, music and refreshments constituted the informal programme.

Mr. and Mrs. W. H. Jones and Mr. and Mrs. W. C. Jones, of Los Angeles are recent arrivals at the Arlington Hotel.

A shooting park is to be constructed on the old race-track area with traps and space for live-bird shooting, and raised seats for visitors.

POMONA.

Last Rites Over the Remains of William B. Dole.

POMONA, Oct. 28. — [Regular Correspondence.] The attendance at the funeral of the late William B. Dole, Wednesday afternoon, was the largest ever known in this city. A large number of friends had contributed beau- tiful floral emblems, and the services were conducted by the Southern California Commandery, Knights Templars. Rev. C. B. Sunseri and Prof. E. R. Morgan of Pomona College conducted the services at the residence. The Knights Templars had charge of the services at the cemetery. The family of the deceased, however, gave the services, which were conducted by the Rev. and Mrs. Frary, who have just reached Massachusetts on their return.

Notwithstanding the excellent discipline maintained at the public schools, Miss Helen Dewey had the misfortune to break an arm while playing at the Sixth-street school Tuesday.

Court Pomona, I.O.P., is preparing for a social gathering next Wednesday, when the address by High Chief Judge McElfresh, and will give a ball.

SAN DIEGO COUNTY.

MISS MCLEAN GETS A JUDGMENT AGAINST MRS. MCKENZIE.

Revenue Cutter Corwin Returns to San Diego With the Shipwrecked Crew of the Schooner Elnorah — Senator Morgan is Slowly Recovering.

SAN DIEGO, Oct. 28. — [Regular Correspondence.] Miss Sarah McLean has been awarded judgment for \$1500 in her suit against Mrs. Martha G. McKenzie, and her character, therefore, has been vindicated by the court.

The cause was concluded late Wednesday evening. As both parties had waited a trial by jury, Judge Torrance reviewed the case, while the court adjourned. When it was over, and the court adjourned, Miss McLean swooned and was soon in a state of utter collapse, as a result of the reaction from the terrible physical and mental strain under which she had been laboring for the past few days. Friends carried her to a window, and she soon rallied sufficiently to be taken to her room.

MARINERS RESCUED.

The revenue cutter Corwin, Capt. Herring, arrived in San Diego last evening to remain for the winter. The Corwin happened by the coast of Point Arguello early Tuesday morning, just in time to take on board the shipwrecked crew of the schooner Elnorah, which had been rescued by the René Beckers of Bremhaven, bound from Portland for Dun- kirk with a cargo of grain, and the ship that had run aground.

Tuesday morning the Corwin sighted a vessel inshore firing rockets. Upon approaching the vessel, it was found to be the René Beckers, which had been driven ashore by a gale. The rescued mariners were taken aboard the Corwin and brought to Santa Barbara, where they were landed to await the Santa Rosa on its trip to San Diego.

SAN DIEGO BREVIETIES.

The members of the union have agreed to an assessment which states in object of the assessment is to build up the trade, reputation and selling price of the citrus fruits produced in this locality, and especially to agree upon uniform minimum prices for oranges and grapefruits, and to fix prices for oranges and grapefruits of all kinds and grades.

The members further agree that they will not sell for less than \$1.80 per box, and will not sell for less than \$1.80 per box.

The union has been instructed to communicate with the Los Angeles papers for the purpose of correcting the impression that the growers and packers of Redlands have agreed to a uniform price for the early crop of fruit.

Society.

Mrs. R. W. Prichard of South Flower street gave an informal tea yesterday afternoon to meet Mrs. Neumann of Berlin, Germany, and Mrs. M. N. Griswold of Chicago. The rooms were prettily decorated with chrysanthemums, papyrus and smilax. Those present, besides the guests of honor, were:

Messamans—
A. N. Davidson, W. C. Patterson,
Fred Fay, Whitman,
K. T. Galpin, Stetson,
J. A. Gossard, Maynard,
W. E. Dunn, Danckin,
R. L. Craig, E. Prichard,
G. W. Scott, J. E. Thompson,
Wyman, J. E. Clark.
Misses—
C. Ellis, Minnie Ward,
Doren, Hobbs.

The Current Events Section reported at the regular monthly business meeting of the Ebell yesterday afternoon. Mrs. R. W. Burnham was in charge of the programme, which included a vocal solo by Miss Shepperd, a discussion of the Hawaiian question introduced by Mr. C. C. Morris, Mrs. J. J. Byrne, arguing against annexation and Mrs. Burnham in favor of it; an informal discussion of the book of the hour, "Quo Vadis," and a violin solo by Miss Maxon.

At the opening of the meeting the president, Mrs. P. C. Baker, made a few introductory remarks concerning the new suite of various articles of furniture in the new quarters, gently bearing in upon the members the desirability of their contributing such trifles as tea cups and saucers, cushions, etc., to add to the comfort and beauty of the rooms.

Miss Frankenfeld was the guest of honor yesterday at a pretty luncheon given by Miss Walrath, at her home on South Pearl street. The other guests were Messrs. Fred A. Hines, W. A. Barker, William H. Weston, the Misses Forrester, Adele Clarke of New York, and Miss Edith V. Smith. The decorations, which were all in pink and green, were exceedingly effective. Bands of pink satin ribbon terminating in bows were laid diagonally across the table, and bits of the same ribbon inscribed in gilt, took the place of the napkin cases. The center was occupied by a tall, branching candelabrum holding pink candles and lace-fringed shades. On either side, resting on round mirrors, were cut-glass bowls filled with La France roses. The souvenirs were heart-shaped white satin bonbonnières filled with French roses, violets, and exquisitely decorated with cupid, carnations, roses and floating clouds. The buffet and mantel were massed with pink roses and smilax, and hanging fern balls here and there added to the pretty effect. White chrysanthemums, red roses and hanging ferns decorated the drawing-room and hall.

NOTES AND PERSONALS.

Miss Julia E. Weaver will leave today for San Francisco for a stay of several weeks.

The Twilight Concert will be given tomorrow afternoon from 4:30 to 5:30 at Immanuel Church, under the auspices of the Young Ladies' Auxiliary.

A dispatch was received in this city yesterday from the Rev. Hugh K. Walker of Baltimore, announcing that he would arrive about December 1, to take up his new pastoral duties at Immanuel Church.

Frederick W. Blanchard left yesterday for a few days in San Francisco.

Rev. and Mrs. W. F. MacLaughlin and two daughters of Iowa are guests of Charles Wade of South Flower street.

Miss Onie Howell of Oakland will arrive today to be the guest of Miss Frankenfeld for ten days.

UNAVAILABLE MATTER.

Inspector Flint Defines the Law on the Subject.

So many inquiries are being made of the postal inspector concerning the exact laws which affect non-mailable matter of any kind, that Mr. Flint gave yesterday a full explanation of this important branch of the postal laws, as follows:

"There seems to be a misunderstanding by many citizens concerning the postal laws, in so far as the mailing of threatening, libelous or scurrilous letters is concerned.

"There is at present any United States law which prevents or prohibits the mailing of such letters.

"The following are the laws relating to the mailing of improper matter:

"Section 3893 of the Revised Statutes of the United States, as amended September 26, 1888, prescribes the following penalties for the mailing of obscene, lewd or lascivious book, pamphlet, picture, paper, letter, writing, printing or other publication of an indecent character, to-wit: a fine of not more than \$5000, or imprisonment at hard labor for not exceeding five years.

"The Supreme Court has held that a written letter in the form of correspondence is within this act; also that the test of obscenity is anything that will awake impure thoughts in the minds of the young.

"It will be noticed that this act does not in any way provide for the punishment of a person who deposits a threatening, libelous or scurrilous letter in a postoffice.

"The act of June 18, 1888, as amended September 26, 1888, provides, however, for the punishment of any person who deposits or causes to be deposited in any postoffice any matter otherwise mailable by law, upon the envelope or outside cover or wrapper of which, or any postal card upon which any delineations, epithets, terms or language of an indecent, lewd, lascivious, obscene, libelous, scurrilous, defamatory, threatening character, or calculated by the terms or manner of style of display and obviously intended to reflect injuriously upon the character or conduct of another, may be written or printed, or otherwise apparent are hereby declared non-mailable matter. Punishment: Fine not more than \$500, or imprisonment for not more than five years.

"It will be noticed that this act provides for the punishment for threatening, libelous or scurrilous language; but same to be within the act must be written or printed on a postal card, or on an envelope or outside cover or wrapper, and not inclosed in an envelope whether sealed or unsealed."

PURE MILK.

The case against R. Orsi, proprietor of the City Dairy, for selling milk below the standard, was dismissed by Justice Morrison yesterday because of failure of the prosecution to prove the charge. Owing to the good quality of the milk which Mr. Orsi has always delivered, he is now supplying over five hundred of the best families, hotels and restaurants, in the city, and will continue to furnish his old and new patrons with the best grade of milk in the market.

SANTA ANA AND RETURN, \$1.35. The Santa Fe will sell excursion tickets 26th, 27th, 28th, 29th, 30th; good until October 31. Trains go at 9 a.m., 2 p.m., 5:30 p.m.

JACOBY BROTHERS,

THE BIG STORE
FOR THE PEOPLE.Beware of Substitutes
Of BENSON'S
Porous Plaster,

Plasters which some unscrupulous druggists offer as being the same or "just as good" as the genuine. Druggists who sell these substitutes are totally unlike the genuine and will disappoint all who are betrayed into buying them. This is the only strictly medicinal article and never fails to relieve Muscular, Neuralgic, Lung and Chest Aches, Sprains, Joint and Kidney Affections, etc. Look for the Three Seals Trademark across face-cloth of the genuine Benson. Price 25cts.

....A Hard Question

Who Will Be Greater
New York's Choice for Mayor?

AN EASY QUESTION

Where should the people of Greater Los Angeles do their trading? Answer—AT HENRY KLEIN & CO'S., Star Clothing House. Here in our stores the combination of honesty and economical prices is doing wonders for us. It makes new friends every day, and holds old ones. Come in and see how it works.

We Do Not Give Away Ponies, Pianos, Bicycles,
Machines, Watches.

EITHER do we give "concerts" to our visitors. All we can promise is a dollar's worth of goods for your dollar.—This "present giving" idea, which has captured some merchants, is an extra expense, which must come from profits and a tax on the many for the benefit of one.—Low rent and small expenses enables us to sell our goods right.
